

3 Tiers-8 Tiers Poultry Battery Cage System Optimized Consumption Chick Rearing Cage

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001
- Model Number: H Type
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60days
- Payment Terms: L/C, T/T
- Supply Ability: 50000 sets per month

Product Specification

- Product Name: Poultry Chick Rearing Equipment
- Tier: 3tiers,4tiers,5tiers,6tiers,8tiers
- Cell Capacity: 11 Birds/Cell
- Area/Bird(c): 327 C
- Material: High-content Al Series
- Service Life: Up To 20 Years
- Applicaion: Poultry Chicken Farm
- Installation Tools: Included
- Cooling System: Automatic
- Accessories: All Of The Accessories
- Classification: Brooder Cage, Layer Cage, Broiler Cage
- Highlight: **3 Tiers Poultry Battery Cage System,
8 Tiers Poultry Battery Cage System,
Optimized Consumption Chick Rearing Cage**

Product Description

Resistance To Frequent Washing Chick Rearing Battery Cage System Optimized Consumption

Farmrob battery cages are distinguished by the following elements that ensure outstanding quality:

1. It can raise brooding and growing chickens for 1 to 105 days. Both the feed level and water level can be freely adjusted according to the age, and the chickens grow evenly.
2. The layer spacing of the cascading equipment is up to 700mm, with a large amount of light, which is conducive to the growth of chicks.
3. The feeding fence is reasonably designed, which not only meets the feeding needs of chickens but also effectively prevents chickens from running away.
4. Equipped with our company's patented nipples, the special structure can effectively prevent blockage and leakage, reduce disease infection and lower the mortality rate.
5. The belt-type manure cleaning system ensures that the chicken manure is dry, the air in the house is clear, reduces bacterial growth, and the survival rate of the chickens is high.
6. The cage frame can reach 8 layers, and a single building can raise 40,000 to 130,000 chickens.

model chart

Specifications

Length	1800mm
Width	600mm
Height	450mm
Layer height	700mm
width/Cell	600mm
Area/Bird	327cm ²

Birds/Cage	33 Birds/Cage
------------	---------------

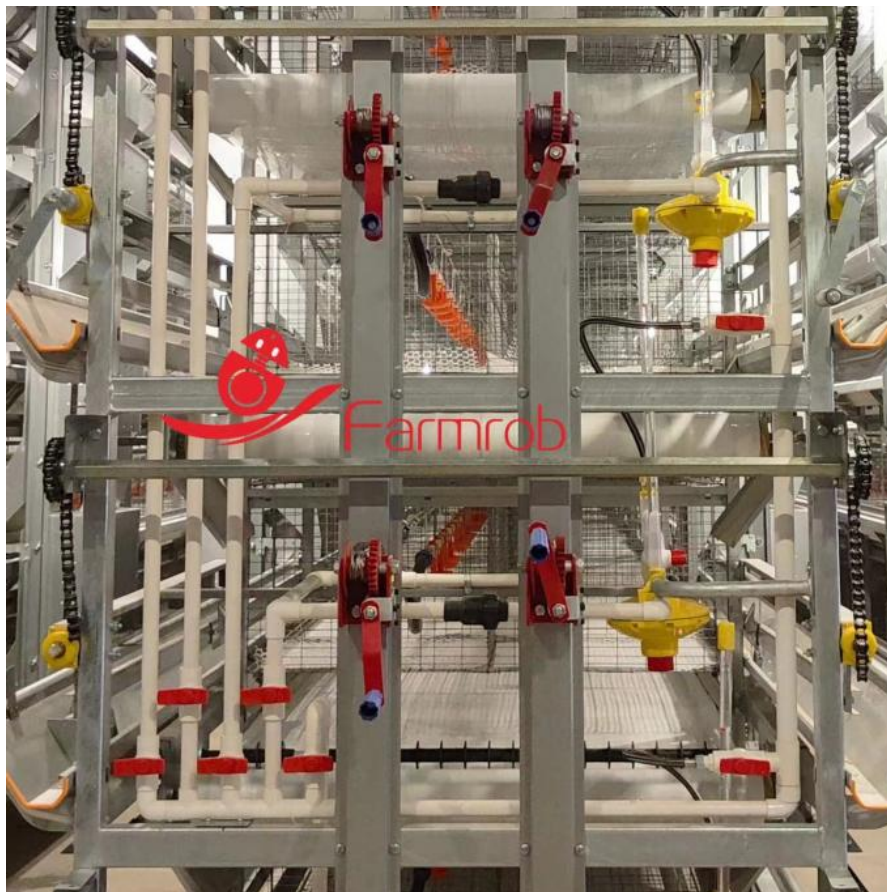

Feeding System

Access to the trough can be facilitated by means of an adjustable metal section as required by the age of the animals.

Drinking System

Two drinking lines (nipples) with height that can be progressively adjusted to the animals' growth have been installed in each cage. This provides the chicks with unimpeded drinking point access at every phase of the cycle. Each nipple comes with a drop-saving cap.
