Product Description**Al-Zn Alloy Mesh Broiler Rearing Battery Cage System Long Service Life****1. Introduce of the broiler poultry automatic cage system**

- 1) The broiler cage is H-shaped, suitable for all kinds of chicken houses (open, semi-open, closed)
- 2) High-density multi-layer chicken cages can reduce land use
- 3) The broiler cage uses scs super coated plate, and the U-shaped steel frame is strong to support the cage
- 4) The cage uses alumimun zinc alloy wire mesh, which has stronger anti-corrosion performance compared with traditional metal electroplating process, the coating has a smooth appearance and self-cleaning function, which can greatly reduce the infection rate of chicken disease

2.Advantage

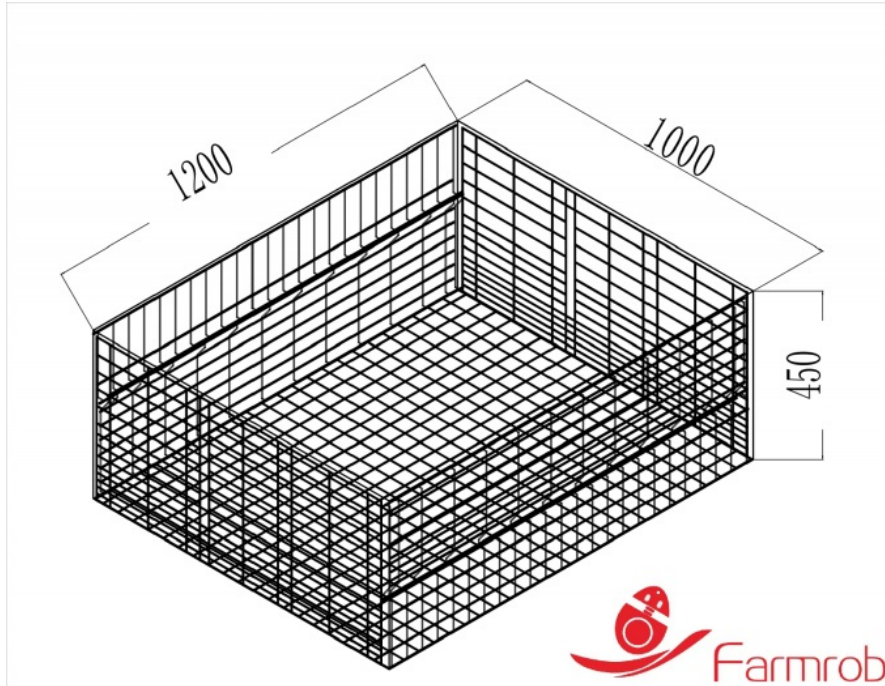

1. Layered broiler breeding equipment has a high space utilization rate and increases the breeding quantity.
2. The amount of exercise for broilers is reduced, energy consumption is low, and feed waste is reduced.
3. Good epidemic prevention for the chicken flock effectively prevents infectious diseases.
4. No contact with manure provides a healthy and comfortable growth environment for chickens.
