

Chick Brooder Cage / Pullet Chick Cages Corrosion Resistant Smooth Burr-Free

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO90001
- Model Number: H Type
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C, T/T
- Supply Ability: 50000 sets per month

Product Specification

- Name: Chick Brooder Cage
- Type: Poultry Battery Cage
- Usage: For 0-105 Days Old Pullet Chicks
- Materials: High-content Al Series
- Nest Capacity: 33 Chicken
- Service Lifespan: 15-25 Years
- Payment Method: T/T, L/C
- Drinker Type: Nipples Or Nipple Cups
- Highlight: **Chick Brooder Cage Corrosion Resistant,
Chick Brooder Cage Burr Free,
Pullet Chicken Cages Burr Free**

Product Description

Chick Brooder Battery Pullet Cage Corrosion Resistant Smooth and Burr-Free

The H-type chick cage is suitable for large closed poultry farms and can rear chicks from 1 to 105 days old. It is recommended for poultry farms with more than 25,000 birds. As a typical tiered chicken cage, the H-type cage is increasingly accepted by livestock farms. The vertically stacked cages save more space, increase the number of birds raised, reduce labor and management costs, and ultimately bring considerable profits to poultry farmers.

Features

1. Feeding Flexibility

Support the rearing of chicks from 1 to 105 days old. Feed and water levels can be freely adjusted according to the age of the chickens, ensuring uniform growth.

2. Equipment Design

The story height of this tiered equipment is up to 700mm, providing sufficient light to facilitate the growth of the chicks.

3. Reasonable Feeding Trough Design

The trough meets the feeding needs of chicks while effectively preventing escape.

4. Patented Accessories

Our specially constructed patented nipples effectively prevent clogging and leakage, reducing disease transmission and lowering mortality.

5. Manure Removal System

The belt manure removal system ensures that manure remains dry and keeps the air inside the house fresh, reduces bacterial growth and improves the flock survival.

Support and Services

Our advanced and durable products are well suited to meet the needs of poultry farmers.

The technical support and services we provide include:

- 1.Installation guidance: Ensure the correct installation and function of the system.
- 2.Ongoing maintenance and repair services: Keep the system in optimal condition.
- 3.Technical troubleshooting: Solve any problems that arise during use.
- 4.Training and instruction: Provide guidance on system use and best practices for poultry care.

We are committed to providing excellent customer service and support to ensure the success of your poultry farming business.
