Product Description

Off The Ground Big Cage-Free-L Big Space

This solution Cage-Free-L has been proven to achieve very high standards of quality of life and reproduction while obtaining almost the same performance and costs as traditional poultry cage systems.

Features and Advantages

1.Elevated Feeding

Each layer is equipped with a manure belt, no litter is used, resulting in less dust and cleaner air inside the house.

2.Convenient Management

Equipped with cage doors and opening mechanisms for easy inculation and handling of chickens.

3.Vertical Perches

Perches are arranged vertically, with climbing ladders provided during the early stages to help chickens move up and down.

4.Rational Feed and Egg Collection Layout

Feed troughs are placed in the inner walkway, and egg collectors are placed in the outer walkway to avoid floor eggs.

5.Early Group Transfer

Young chickens (60 days old) can be transferred early to the laying frames with only one set available.

6.High Stocking Density

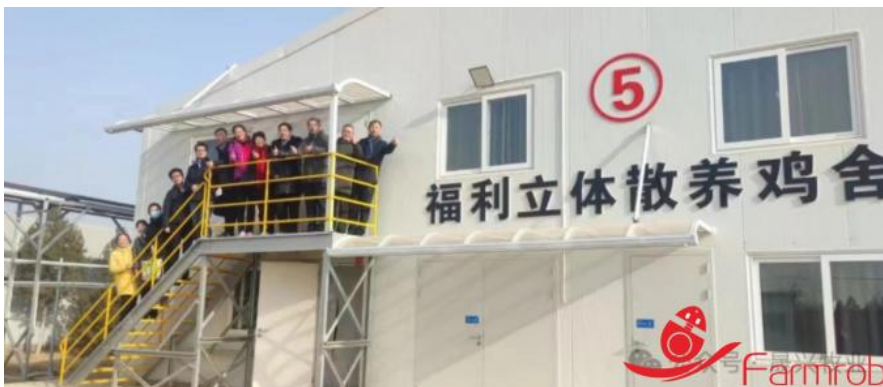

Each building can accommodate up to 80,000 birds

7.Environmental Improvement

Enhance the internal environment, ensure sufficient activity space for the chickens, improve health and welfare, and reduce drug residues.

The Cage-Free L system is equipped with multiple levels of perches and includes sand baths, allowing chickens to move freely and express their behaviors. It features multi-level scratching posts and nesting boxes to enhance their welfare. Chickens can fully engage in natural behaviors such as stretching their wings, preening, and dust bathing, thereby liberating their instincts. This setup allows chickens to return to a more natural state, ensuring their health and enhancing their energy and vitality.
