Product Description

Energy Efficient Poultry Lighting System Economical Manner For Baby Chicken

Farmrob cages have the following features to ensure outstanding quality:

1. Birds can be raised on every level of the battery cage from day one.

2. The cage is well-designed for all breeding operations, particularly for the care and removal of birds.

3. Every part of the cage is meticulously designed to eliminate dirt accumulation points and breeding sites for parasites.

4. The use of "support legs" with reinforced sections makes the entire structure more robust.

5. Appropriate materials are used, with treated surfaces that can withstand frequent cleaning.

6. Extremely precise feed distribution optimizes consumption and reduces waste.

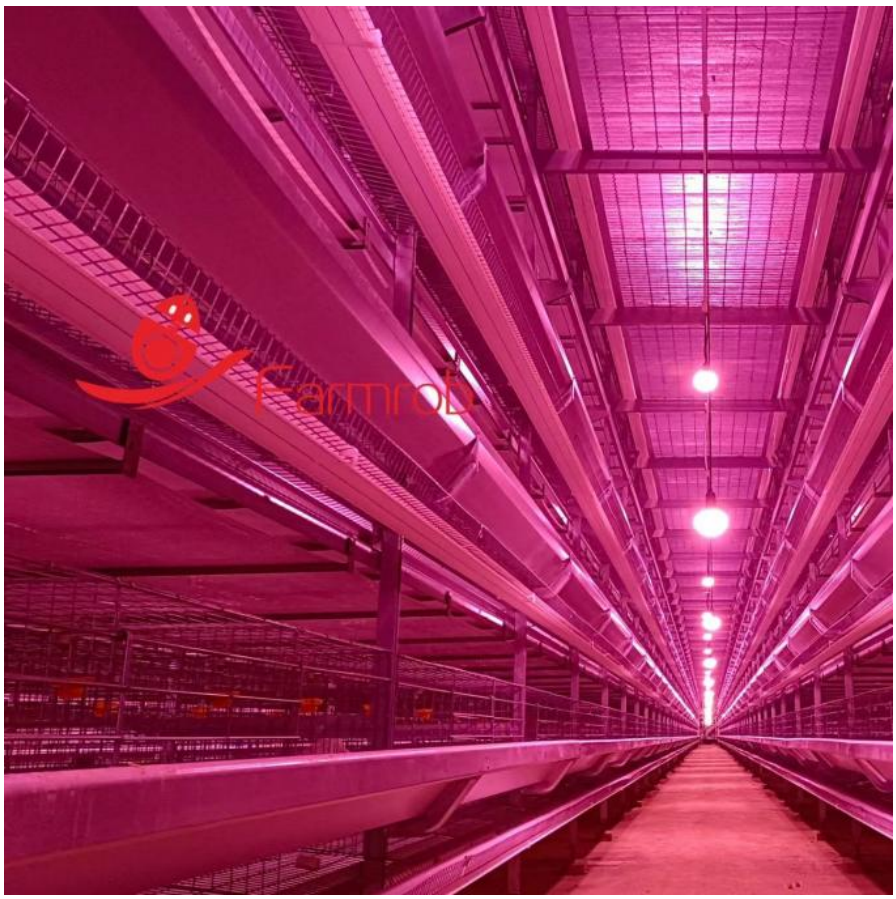
Lighting System

Farmrob uses specialized LED red light bulbs for livestock, equipped with a dimming system that allows for

adjustments in light intensity and gradual light transitions. It features a timed switch and separate control functions to reduce stress in chickens, as well as pecking at each other and at eggs.



Advantages

1.The height of the drinking line is easily adjustable, providing hens with a continuous water supply.

2.Saves feeding time and labor; cage-reared hens can reduce feed costs by approximately 25% and make farm management easier.

3.Reduces the spread of diseases; the cage system for hens offers better ventilation, helping to prevent disease transmission.

4.Sturdy and durable; the hen cages use hot-dip galvanizing technology, making them corrosion-resistant and aging-resistant,with a lifespan of 15 to 20 years.
