Low Malfunction Rate Poultry Feeding System Exact Control For Pullet Chicken Farming

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001
- Model Number: H Type
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60days
- Payment Terms: L/C, T/T
- Supply Ability: 50000 sets per month

Product Specification

- Name: Poultry Battery Pullet Chicken Cage
- Usage: Poultry Farming
- Cell Size: 1800×600×450mm
- Capacity Per Cell: 33 Birds/Cell
- Cage Capacity: 264-568 Chickens Per Set
- Feature: Automatic Pullet Chicken Cage
- Service Life: More Than 15 Years
- Feeding System: Automatic Feeding System
- Drinking System: Automatic Drinking System
- Highlight: **Exact Control Poultry Feeding System**, **Pullet Chicken Farming Poultry Feeding System** , **Low Malfunction Rate Poultry Feeding System**

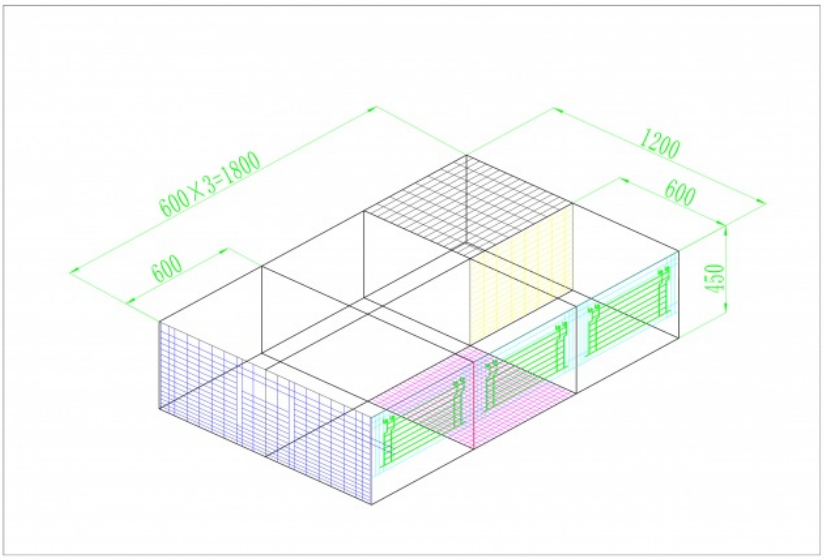
Product Description

Low Malfunction Rate Poultry Feeding System Exact Control For Pullet Chicken Farming

Pullet poultry farming cage is designed from 4 tiers up to 8 tiers, and our poultry chicken battery cage system is certified by ISO9001, with scientific design and efficient working process, solid structure, and one-site installation services, which is very popular in closed house for large scaled poultry farm. All equipments contain automatic feeding machine, automatic egg collecting machine, automatic manure removal machine, ventilation equipments, and Prefabricated steel structure poultry houses.

Specification

H type pullet chicken cage								
Cage size(mm)	Doors/cage	Birds/door	Birds/cage	Tiers	Cages/tier	Birds/tier	door Size(mm)	Area/bird (cm²)
1800×600×450	3	11	33	4	8	264	600×600×450	327
1800×600×450	3	11	33	5	10	330	600×600×450	327
1800×600×450	3	11	33	6	12	396	600×600×450	327
1800×600×450	3	11	33	8	16	528	600×600×450	327



Feeding system

The feeding system primarily addresses the issue of uneven feeding within the industry.Our Farmrob trolley feeding system is characterized by stable operation, uniform feeding, low failure rates, and high cost-effectiveness.The large-capacity hopper meets the demands for back-and-forth feeding. With carefully adjusted discharge angles and openings, smooth feeding is ensured, preventing blockages.The uniform feeding device at the discharge outlet achieves consistent feed distribution, improving feed utilization and reducing waste.The entire set of travelling equipment is made from high-quality materials, featuring a simple structural design, fewer components, easy maintenance, and an extremely low failure rate.

Why Choose Us?

Farmrob has more than 20 years of poultry farming experience.We provide project design, quotation, and combine with our farm technical consultants to make overall budget and farming plans

1. We have advanced technical equipment and can also provide installation and technical guidance

2. Thoughtful service and perfect after-sales service system
