

ABS Engineering Plastic Ball Valve Nipple Drinker Poultry Accessories Seal Structure

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001
- Model Number: BVND
- Minimum Order Quantity: 2000 sets
- Packaging Details: In wooden cage packaging
- Delivery Time: 20 days
- Payment Terms: L/C, T/T
- Supply Ability: 50000 sets per month

Product Specification

- Type: Chicken Drinker
- Usage: Poultry Equipment
- Color: Red, Yellow
- Life Circle: 10-15 Years
- Material: ABS & Stainless Steel
- Transport Package: Carton
- Specification: 290*340*320mm
- Highlight: **Seal Structure Ball Valve Nipple Drinker ,
Poultry Accessories Ball Valve Nipple Drinker**

Product Description

ABS Engineering Plastic Ball Valve Nipple Drinker Poultry Accessories Seal Structure

Ball Valve Nipple Drinker for layers is made of high-quality engineering plastics, and the valve rod inside is made of high-quality stainless steel. All these features make it anti-corrosion, anti-rust, and more than ten year's longevity. It has been used in large chicken farms in China and abroad and has been proven to have a service life of up to 10 years, with an annual production of over 30 million ball valve nipple drinkers.

Features

1. The shell of ball valve nipple drinker for layers, made of ABS engineering plastic, is corrosion-resistant and resistant to chicken pecking.
2. Three layers of seal structure, made of stainless steel, making the drinker do not leak within 10 minutes.
3. The valve opening force is less than 0.4N, so it is not easy to throw water drops and chicken manure will be dry and easy to clean.
4. There are a variety of nipple seats that can be used with square tube or round tube water line.
5. Back cover with self-locking ring slot to prevent dislodgement .
6. 360 degrees out of the water. Day-old chicks can be used.
7. Easy to disassemble. Easy to clean and replace.

About Us

Adopt high precision lathe to ensure the consistency of product processing. Fully automatic nipple drinkers production line completely in accordance with the design standards.

1. Complete Supporting Set

Complete nipple drinking line, including front-end filter, pressure regulator, dosing device, terminal, PVC pipeline,

suspension device, etc., to keep the water clean and not exposed. All of these reduce the spread of germs in the hen house.

2. Customized Products

According to the specific requirements of the customer, pre-sales design is available, we can carry out the pre-sales design of the chicken coop and customize water lines according to customer requirements.

3. After-sales Service

There is a high-quality installation service team to carry out installation and offer a complete range of services. We can also provide technical documents and video materials to guide customers to install by themselves. We provide a 24-hour service line.

4. Professional Technical Team

Every year, our technical team will go deep into the hen house to collect and analyze data on the use of ball valve nipple drinkers, make better designs and launch series products according to the change in breeding technology.

5. Quality Assurance

Comprehensive testing standards, each ball valve nipple drinker for layers is tested for water before leaving the factory. Every product that was sold has been tested on the test bench according to the standards. Only qualified products can be sold.

6. National Standard Setter

We are the maker of the national standard for the production of nipple drinkers in China.
