

Premium Poultry Cage System 4-Tier Adjustable Chick Brooder

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001
- Model Number: H Type Pullet Rearing Equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Story Height: 700mm
- Cage Size: 1800x600x450mm
- Area/Bird(c) : 327 C

Product Description

Premium Poultry Cage System 4-Tier Adjustable Chick Brooder

Automatic pullet cages information

1. Cage size: 1.8m*1.6m*0.45 (length*width*height) Raise chicks from 0-105 days.
2. Spring door: Be operated with one hand. Convenient for vaccinations and transferring chickens in and out.
3. Uniform ventilation and illumination: Story height is 700mm, and the distance between the top mesh and the manure belt is 13-15cm. Improve ventilation effect for the birds.
4. Wire mesh is Al-Zn alloy without burrs. Equipped with plastic cushion for comfortable living condition. Ensure the best anti-rust performance and no hurt to chicks.
5. Frames are made of Al-Zn-Mg alloy with high strength and corrosion resistance. Connectors like trough hook, partition bucket and so on are for equal force.

Adjustable feeding system

Trough: The bottom width of the trough is 45mm. Baby chick in 0 days old can forage. No waste. No manual movement of feed.

Feeding plate adjusting device: Each layer can be automatically adjusted on each side Suitable for different ages. Patent structure: consistent front and rear adjustment, minimal error.

Feeder-cart: Low failure rate. Simple structure, uniform feeding, easy operation. Patents: Chicken driver, residue collector.

Filling devices: The filling process is two-stage. The slant and transverse filling are respectively controlled by one motor to avoid the breakage of the spiral and the pipe at the intersection.

Adjustable drinking system

Two water lines and double nipples: Square pipe, size: 22x22mm. PVC. Sufficient drinking water intake.

Water line regulating linkage: Meet the needs of different ages. Installed on each tier. Each water line with 1-3 soft connections to effectively prevent deformation of pipes. Alloy pull parts for the consistent waterline height.

Front back flush device: Each water line is equipped with a backwashing device to facilitate regular flushing of the pipe and nipple drinkers. Chickens can use clean water.

Water line terminator: Easy adjustment of water supply, connected with the drain pipe, no water leakage.

Why Choose Us?

Farmrob has more than 20 years of poultry farming experience and mature system.

1. Customized construction and project design and engineering solutions
2. Reasonable and cost-effective quotation
3. Chicken-oriented and animal-friendly equipment
4. Advanced technical equipment with 25-year lifespan
5. Provide installation and technical guidance
6. Training for farmers on how to properly care for the birds and use and maintain the equipment
7. Thoughtful service and perfect after-sales service system
