

Consumer-Friendly Layer Chicken Cage System Highly Effective Manure Clearance

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001
- Model Number: H Type Automatic equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Story Height: 700 Mm
- Cage Size: 1800mm*650mm*450mm
- Material: Al-Zn-Mg Alloy; New PP Material
- Feature: Anti-aging, Anti-corrosion
- Service: Technical Training, Installation Guidance

Product Description

Consumer-Friendly Layer Chicken Cage System Highly Effective Manure Clearance

Developed by Farmrob's expert engineering team, this product blends innovative design with precision manufacturing. Utilizing an optimized development methodology, we maintain rigorous quality control to guarantee peak performance and dependable operation. Engineered with a rugged construction, it provides superior stability and extended service life, excelling in high-intensity operational environments.

Accessories of manure removal system

Designed to overcome common industry pain points, Farmrob's manure management system eliminates belt tracking issues and significantly reduces equipment failure rates.

1. Anti-aging white PP manure conveyor belt featuring superior friction properties and excellent deformation resistance with a long service life. Thickness 1.0 mm.
2. The front nylon-reinforced spiral driven wheels provide dual functionality: prevent the manure cleaning belt from deviating and effectively remove accumulated manure. The integrated manure-blocking board minimizes the pollutant transmission to keep environment clean.
3. The Al-Mg-Zn belt bracket has good strength and high anti-corrosion performance without burrs on the surface, ensuring smooth, scratch-free interaction with manure belts.
4. Both the back large and small rollers are injection-molded tire rubber drive wheels, which have good plasticity, good friction effect, and eliminate stress and protect the manure cleaning belt.
5. The dual-injection-molded double scrapers protect the manure belt and make the manure removal cleaner, significantly reducing contamination to chickens and eggs.

About Farmrob

Farmrob is a leading poultry manufacturer, No.1 layer equipment market share and provider, Top three poultry industry in China. We are committed to providing reliable and durable equipment for clients. With technological innovation as the core, Farmrob insists on animal welfare and production efficiency, and helps the global farming industry to move towards a better future.
