

Burr-free Treatment Layer Chicken Cage System Alloy Reinforcement

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001
- Model Number: H Type Automatic
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Material: Al-Zn-Mg Alloy
- Story Height: 700mm
- Cage Size: 1800*650*450mm
- Water Line: Double Line, Round Pipe
- Area/bird: 434cm²
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System
- Services: Maintenance, Debugging, Technical Training, Installation Guidance,

Product Description

Burr-free Treatment Layer Chicken Cage System Alloy Reinforcement

About cage frame system

The medium frames are constructed from a durable Mg-Al-Zn alloy, while the head and tail frames feature hot-dip galvanized coating. All frames exhibit excellent strength and superior corrosion resistance, capable of enduring harsh environmental conditions with a service life extending up to 25 years.

The Q235 Al-Zn alloy wire mesh with excellent plastic features a smooth, burr-free surface to protect chickens' feet and skin. The bottom wire mesh securely supports eggs without causing cracks or damage.

The story height is 700mm, ensuring proper ventilation and ample natural light.

Additionally, the manure belt is positioned 13-15cm below the top net, effectively reducing contamination and reducing the probability of chicken pecking the manure belt.

The metal buckles fasten directly to the trough, distributing force evenly across the cage structure for enhanced strength and minimal deformation. Trough is made of Al-Zn-Mg high strength plate, thickness 0.95-0.98mm. Trough hook is 1.8mm.

FAQ

1.Q: Are you a manufacturer?

A: Yes, we have been providing professional products in this field.

2.Q: Can you design the drawings of the chicken coop for my farm?

A: Yes, You need to provide us with the size of the farm and your design concept.

3.Q: Can you provide technical training?

A: Yes, we provide the guidance of installation and maintenance.

4.Q: How about your service

A: Offering pre-sale service, one-site service, including project design, quality control, installation, debugging, after-sale service and farming guidance.
