Product Description

Enhanced Performance Poultry Cage System for Baby

Chicks

Features

1. Cage size: 1.8m*1.6m*0.45 (length*width*height). Raise chicks from 0 to 105 days.
45 cm bottom width of trough and 0-day chicks have space to eat feed.
2. Spring door: One-handed operation enables easy vaccination access and safe chicken transfer.
3. Uniform ventilation and illumination: Story height is 700mm improves ventilation effect for the birds. Warm light boost the growth of baby chicks and reduce stress.
4. The cage features smooth, burr-free Al-Zn alloy wire mesh that provides exceptional corrosion resistance while ensuring chick safety. Each cell comes with integrated plastic cushion flooring to create a comfortable living environment that prevents foot injuries and promotes healthy growth. This combination of durable rust-proof construction and protective cushioning delivers optimal living conditions for young poultry.
5. The cage frames are constructed from high-strength Al-Zn-Mg alloy, ensuring superior durability and corrosion resistance. Reinforced connectors—including trough hooks, partition buckets, and other components—are designed to distribute force evenly, enhancing structural stability and longevity.
