Product Description

30000 Pullet Poultry Cage System with Spring Door

Developed and designed by Farmrob's expert team, our products have good outline and high performance. The optimized operation and streamlined workflows guarantee superior performance and reliability. Engineered with a robust construction, it offers outstanding stability and durability, perfectly suited for even the most rigorous applications.

Features

1.Through the precise design of the environmental control system and a reasonable story height of 700mm, the air inside the poultry house is fresh and the temperature is stable. Good ventilation effect with faster wind speed reduces the negative pressure to make the chicken breathe smoothly and feel more comfortable.Also, enough space improves illumination in the cage.

2.Mesh is made of Q235 Al-Zn alloy wire. (10%Al, 275g/m² Zn) Spring cage door can be operated with one hand. Convenient for vaccinations and transferring chickens in and out.The troughs are made of Al-Zn-Mg alloy plate(zinc thickness=275g/m², Al11%,Mg3%)

3.A adjuster control the height of water pipe, and water pipe is equipped with alloy pull parts to ensure consistent waterline height. Each water line is equipped with a backwashing device to facilitate regular flushing of the pipe and nipple drinkers. And its position is convenient for handling.

4.The feeding plate adjusting device of each layer can be automatically adjusted on each side with consistent front and rear adjustment, minimal error.
