## Product Description

### 30000 Layer Chicken Cage System Healthier Environment

Farmrob has always adhered to the concept of "chicken-oriented ", dedicated to providing a healthier and more comfortable breeding environment for laying hens, while ensuring the quality and safety of eggs.

#### Optimize Laying Hens' Health

- Scientific Cage Design: Our cages provide ample space for each chicken, effectively reducing stress-related behaviors like feather pecking and aggression. The mesh prevent escapes and eliminate any risk of trapping. The elastic, burr-free bottom mesh safeguards the birds' skin and feet, offering both comfort and protection for healthier poultry.
- 700mm cage story height, integrated with environment control management and modern ventilation and cooling system including fans, cooling pads and air deflectors, ensures uniform ventilation throughout all tiers. Equipped with flicker-free dimmable LED bulb, lighting system guarantees each chickens receives consistent illumination. The fresh air, optimal temperature and humidity levels and balanced airflow promote natural respiratory comfort for the birds.
- Enhanced Disease Prevention System: The tiered isolation design significantly reduces cross-contamination risks while facilitating efficient health management. Compatible with vaccine trolleys enables streamlined vaccination procedures and comprehensive health monitoring across all layers.
