

## Scientific Management Layer Chicken Cage System for Large Scale

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Service Life: Over 15 Years
- Stroy Height: 700mm
- Cage Size: 1800\*650\*450
- Characteristics: Automatic Feeding System, Automatic Drinking System, Manure Removal System, Egg Collection System, ventilation And Cooling System
- Material: Al-Zn-Mg Alloy, Al-Zn Alloy, Hot-dip Galvanizing
- Highlight: **scientific layer chicken cage system, large scale poultry farming equipment, layer cage system with warranty**

## Product Description

### Scientific Management Layer Chicken Cage System for Large Scale

Farmrob's equipment ensures each chicken receives uniform feed and features a double water line system, meeting daily nutritional requirements. The spacious design reduces stress and minimizes pecking behavior, promoting flock harmony.

The advanced lighting and ventilation systems, designed with Farmrob's expertise, provide consistent illumination, fresh air circulation, and optimal temperature control. This creates a comfortable environment that enhances chicken health and well-being.

#### Key Features:

##### Reduced Egg Breakage:

The Q235 Al-Zn bottom net with good elasticity and 7.5° slope ensures a gentle landing for eggs, maintaining a breakage rate below 0.2%. The egg collection belt operates smoothly at a consistent speed, enhancing stability and further minimizing breakage while boosting overall efficiency.

##### Hygienic Environment:

Manures are not left on the net, keeping eggs uncontaminated by waste and minimizing the risk of salmonella or other bacterial exposure. The integrated egg leakage device filters out broken or soft-shell eggs, further reducing cross-contamination and upholding the highest food safety standards.

##### Extended Peak Laying Period:

Farmrob's advanced management systems enhance the overall health of laying hens, significantly prolonging their high-productivity phase and maximizing egg output.

#### Why Choose Farmrob?

1. Top 1 layer equipment supplier and manufacturer in China with 20+ years experience
2. Customized construction and project design solutions
3. Cost-effective pricing without compromising quality
4. Chicken-oriented, animal-friendly equipment design
5. Advanced technical equipment with 25-year lifespan
6. Professional installation and technical guidance
7. Comprehensive training for proper bird care and equipment maintenance
