

3-5 Tiers Layer Chicken Cage System Smart System with Al-Zn-Mg trough

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Tiers: 3-5
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System
- Story Height: 700 Mm

3-5 Tiers Layer Chicken Cage System Smart System with Al-Zn-Mg Trough

Features:

- 1.The high-strength aluminum alloy feeding trough comes in two versions: 0.98mm thickness-with flanged edges; 0.95mm thickness-without flanged edges. The metal buckles are directly attached to the trough and the beam hook catches the side wire mesh, ensuring even force distribution throughout the cage structure for increased strength and reduced deformation.
- 2.The double water lines provide sufficient water for chickens, flicker-free bulbs provide even lights for chickens, which are essential for their growth and development. 700 mm story height increases the gap between the manure belt and the top net. The cage height is 45cm to ensure sufficient ventilation and good heat dissipation effect, which will make chickens feel comfortable.
- 3.Each water line is equipped with a backwashing device for convenient regular flushing of the pipes and nipples, and the installation position is convenient for manual operation. Water drainage device drains the water out of the house. Water terminal device is convenient for checking and adjusting water level, connected to the drainage device, avoiding water spillage.

Support and Services:

The cage rearing system is a high-quality, durable, which designed to meet the needs of poultry farmers.

The technical support and services we offer include:

- 1.Installation Guidance: Ensuring smooth installation and proper functionality of the system.
- 2.Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
- 3.Technical Troubleshooting: Quickly resolving any issues encountered during use.
- 4.Training and Instruction: Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
