

Stable Performance Layer Chicken Cage System in Morocco

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic system
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-aging, Anti-corrosion
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Services: Technical Training, Installation Guidance
- Services Life: Over 15 Years
- Material: Al-Zn-Mg Alloy, Al-Zn Alloy, Etc.

Product Description

Stable Performance Layer Chicken Cage System in Morocco

As a long-standing provider of poultry farming solutions, Farmrob is specialized in engineering and delivering high-performance equipment and automatic rearing systems to optimize modern poultry production and drive productivity. Whether adapting to extreme climates or infrastructure limitations, our solutions are precision-tailored for regional requirements worldwide.

Advantages

Mature cage design: Proper mesh grid prevents chickens from becoming trapped while allowing manures to pass through, minimizing egg contamination. The cage provides ample space for natural movement. Burrs treatment: All welded joints are polished smooth to prevent injury to the birds' feathers or skin. The high-strength frame ensures structural integrity, preventing deformation or collapse.

Feeding system-feeding cart: Regular and quantitative feeding systems. Integrated filling and dispensing devices, combined with patented devices such as feed distributors, residue collectors, and anti-spill units, minimize feed waste and ensure even distribution.

Drinking water system: Double water lines and double nipple drinkers guarantee a consistent and ample water supply. The layers have unrestricted access to water through Farmrob's patented nipple design, which minimizes water waste and prevents clogging.

Durability and stability: Zn-Mg-Al alloy material delivers high strength and superior corrosion resistance. The selected premium materials offer excellent anti-aging properties and are finished with meticulous craftsmanship. Its continuously updated and optimized design significantly reduces the failure rate.

Support and Services:

The cage rearing system is a high-quality, durable, which designed to meet the needs of poultry farmers.

The technical support and services we offer include:

1. Installation Guidance: Ensuring smooth installation and proper functionality of the system.
2. Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
3. Technical Troubleshooting: Quickly resolving any issues encountered during use.
4. Training and Instruction: Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
