

## Intelligent Layer Chicken Cage System For Global Farms

### Our Product Introduction

#### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

#### Product Specification

- Materials: Al-Zn-Mg Alloy; Al-Zn Alloy; Hot-dip Galvanizing Etc.
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Story Height: 700mm
- Trainings: Installation, Maintenance, Debugging
- Service Life: Over 15 Years

## Lower Contaminant Layer Chicken Cage System For Global Farms

### Advantages

Farmrob's H-type chicken coop, known as a multi-tiered cage system, offers numerous advantages including high rearing density, efficient land use, reduced labor requirements, decreased risk of disease transmission, as well as simplified environment management. Furthermore, the H-type cage design is highly compatible with IOT and technologies, enabling the integration of advanced intelligent systems into poultry rearing operations. Farmrob will drive technological advancement in the global chicken industry.

Adopt automatic feeding, drinking, manure removal, egg collection, and environment control for improving efficiency and reducing resources and labor costs.

With even and sufficient distribution of feed and water, our system ensures healthier chickens and saves on feed costs.

Our system effectively separates chickens from manure belt, significantly reducing contaminant levels within the coop and minimizing the risk of disease transmission from contaminated waste. As a result, overall chicken mortality rates are substantially lowered.

The system's automated control of ventilation and temperature is precisely meet the physiological needs of chickens at different growth stages, ensuring a consistently healthy and comfortable environment while supporting optimal welfare and productivity.

### Fully automatic systems:

1. Automatic feeding system
2. Automatic drinking system
3. Automatic egg collection system
4. Automatic manure removal system
5. Automatic cooling and ventilation system
6. Automatic control system
7. Big data platform

Significantly reduce the need for operators, lower labor intensity, and enhance productivity.

### Why Choose Us?

Farmrob has more than 20 years of poultry farming experience and mature system.

1. Top 1 layer equipment supplier and manufacturer in China

2. Customized construction and project design and engineering solutions
3. Reasonable and cost-effective quotation
4. Chicken-oriented and animal-friendly equipment
5. Advanced technical equipment with 25-year lifespan
6. Provide installation and technical guidance
7. Training for farmers on how to properly care for the birds and use and maintain the equipment
