

Low Infection H Type Battery Chicken Cage with Good Living Environment

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-aging, Anti-corrosion
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Services: Technical Training, Installation Guidance, Maintenance
- Story Height: 700mm
- Accessories: Feeders, Nipples, Manure Belt, Etc

Product Description

Low Infection H Type Battery Chicken Cage with Good Living Environment

Manure removal system

White PP manure belt(thickness: 1mm/1.2mm). Not easy to stretch and deform, with long service life. The distance between the top mesh and the manure belt is 13-15cm. The chickens can not peck at the manure belt.

Farmrob's innovative manure removal system delivers exceptional performance. The system effectively eliminates the problem of off-track belt while substantially lowering equipment failure rates.

The driven plastic nylon spiral roller actively prevents manure accumulation, ensuring smooth operation. Burr-free Al-Zn-Mg alloy brackets can withstand heavy manure loads without deformation and not scratch the manure belt. The curved design of the bracket ensures stable belt tracking and prevents manure falling onto the cage net.

Incorporate a multi-tier integrated control mechanism for the manure scraper. Polyurethane double scrapers can clean the manure more effectively.

Back manure conveyor: Features a 7mm thick manure belt and an alloy frame that is rust-proof and deformation-resistant. Effectively transports manure to collection trucks or processing facilities.

The fully automated operation significantly reduces labor requirements while minimizing infection risks through consistent waste removal.

Features

1. Automatic control systems
2. Simplified management and low labor
3. Double water line and enough feeding position
4. High feed conversion ratio
5. Easy to operate and maintain
6. Comfortable environment with fresh air and soft wind
7. Low morbidity and mortality
8. Large-scale breeding and good economic benefits
9. Good illumination and ventilation
10. Anti-aging material

Why Choose Us?

Farmrob has more than 20 years of poultry farming experience and mature system.

1. Top 1 layer equipment supplier and manufacturer in China

2. Customized construction and project design and engineering solutions
3. Reasonable and cost-effective quotation
4. Chicken-oriented and animal-friendly equipment
5. Advanced technical equipment with 25-year lifespan
6. Provide installation and technical guidance
7. Training for farmers on how to properly care for the birds and use and maintain the equipment.
