

Dedicated Layer Chicken Cage System for Bangladesh's Poultry Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Feature: Anti-corrosion
- Services: Maintenance, Debugging, Technical Training, Installation Guidance,
- Story Height: 700 Mm
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System

Product Description

Dedicated Layer Chicken Cage System for Bangladesh's Poultry Farms

Through dedicated R&D and collaboration with famous universities, Farmrob has developed an innovative solution designed for modern poultry farming demands. As one of the top three companies in China, Farmrob has won the trust of our clients with reliable products and mature solutions. Farmrob's fully automatic layer rearing equipment is popular and empowers the future of smart farming.

1. Proper mesh grid prevents chickens from being trapped while allowing manures to pass through, minimizing egg contamination. The cage provides ample space for natural movement. The high-strength frame ensures structural integrity, preventing deformation or collapse.
2. Troughs are made of a high-strength Al-Mg-Zn alloy (Zn 275g/m², 10% Al, 3% Mg) with a thickness ranging from 0.95 mm to 0.98 mm. They are designed with smooth surface for easy cleaning, and have solid and durable design. Two versions are available: a 0.98 mm thick with flanged edges, and a 0.95 mm thick without flanged edges.
3. The driven plastic nylon spiral roller prevents manure accumulation, ensuring smooth rotation of the manure belt. Burr-free Al-Zn-Mg alloy brackets can withstand heavy manure loads without deformation and not scratch the manure belt. The curved design of the bracket ensures stable belt tracking and prevents manure falling onto the cage net.
4. 7W red LED light bulb is fully waterproof and dustproof. Operating on 220V DC. It provides flicker-free, dimmable illumination that helps reduce stress, anal pecking, and egg pecking. Equipped with a dimmer, integrated lamp cord, and accompanied by steel wires and flower bars for easy installation.

Support and Services:

The cage rearing system is a high-quality, durable, which designed to meet the needs of poultry farmers.

The technical support and services we offer include:

1. Installation Guidance: Ensuring smooth installation and proper functionality of the system.
2. Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
3. Technical Troubleshooting: Quickly resolving any issues encountered during use.
4. Training and Instruction: Providing training on system usage and best practices in

poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
