

750 Cage Height Poultry Cage System for Breeder

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: Breeder cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Feature: Anti-corrosion
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 850 Mm
- Accessories: Curtain, Perch Pole Etc.

Product Description

750 Cage Height Poultry Cage System for Breeder

Farmrob's cages simulate a natural mating environment, which enhances animal welfare by reducing stress and promoting natural behaviors, while achieving higher and more stable fertilization rates and significantly reducing labor costs and management complexity.

1. Perch poles simulate the natural environment to accommodate chicken behavior; Red curtains create secluded spaces to ensure vigorous growth and comfortable resting conditions. This configuration guarantees unimpeded egg-laying and mating processes and effectively prevents stress in the flock, fulfilling the fundamental requirements for welfare-oriented poultry farming.
2. Each bird is provided with a minimum unit area of 550 cm². The cage is equipped with a permanently open access door which can be closed for biosecurity or depopulation procedures, effectively doubling the activity space. With a height of 750mm, the cage facilitates natural mating behavior without restriction.
3. The story height of 850mm improves ventilation and light distribution. This design reduces bird discomfort caused by pressure, minimizing temperature variations and maintaining lower pressure differentials.
4. Protective boards are added to prevent injuries to smaller birds and to avoid problems such as escapes or birds getting stuck.
5. The cage's dimensions, angles, and bottom wire strength are designed to prevent egg retention, breakage, and contamination, without impeding natural mating or the rooster's unobstructed access to feed.

Support and Services:

The cage rearing system is a high-quality, durable, which designed to meet the needs of poultry farmers.

The technical support and services we offer include:

1. Installation Guidance: Ensuring smooth installation and proper functionality of the system.
2. Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
3. Technical Troubleshooting: Quickly resolving any issues encountered during use.
4. Training and Instruction: Providing training on system usage and best practices in poultry management.
