

Functional Layer Chicken Cage System for Efficient Breeding

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C, T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Cage Size: 1260*650*450; 2 Cells/cage
- Feature: Anti-corrosion

Product Description

Functional Layer Chicken Cage System for Efficient Breeding

Combining advanced technology with durable materials, the Farmrob H-Type Layer Cage Systems keeps chickens safe and comfortable and is easy for farm owners to use and maintain. Our equipment is highly corrosion-resistant, effectively withstanding rust in salty and humid environments.

Features

- 1.The middle supports are made of Mg-Al-Zn alloy, and the head and tail frames are hot-dip galvanized.0.95-0.98mm thickness Mg-Al-Zn alloy feed troughs with patented devices such as residue collection device and feed leveler to distribute feed evenly and avoid feed wastage.
- 2.The driven plastic nylon spiral roller prevents manure accumulation, ensuring smooth running of the manure belt. Burr-free Al-Zn-Mg alloy brackets can withstand heavy manure loads without deformation and not scratch the manure belt. The bracket ensures belt on track and prevents manure falling onto the cage net. One manure belt is equipped with four scrapers that ensure complete manure removal, preventing chickens from pecking at waste and getting sick.
- 3.Stable and low-failure egg lift with defective egg filter ensures keep clean eggs. High-friction PP egg belt with low extension rate has long lifespan.Central Egg Collection system can be chosen. All eggs will be delivered to outside of poultry house. This can save labor cost and reduce the contact of workers with birds.

Fully automatic systems:

- 1.Automatic feeding system
- 2.Automatic drinking system
- 3.Automatic egg collection system
- 4.Automatic manure removal system
- 5.Automatic cooling and ventilation system
- 6.Automatic control system
