Product Description

30000-60000 Poultry Battery Cage System for Enhanced Pullet Welfare and Performance

Farmrob is driven by a "chicken-oriented" philosophy, designing durable and reliable poultry systems that prioritize animal welfare. Our equipment features smooth surfaces and a scientific layout, incorporating advanced technology to enhance both bird health and productivity. Ideal for rearing , these systems ensure a secure, sanitary, and highly efficient operating environment.

Feeding system

1.Farmrob's feeding system has a simple structure with easy operation. But we can easily meet the demand of uniform feeding. Both of the auger filling device and disc chain filling device are available to suit different tiers.

2.The feeder-trolley is equipped with transparent viewing ports on each hopper and a large-capacity design for circular feeding. Patent devices include a dust cover, feed leveler, chicken driving stick, integrated brush, and a patented residue collector, which collectively minimize feed waste.

3.The feeding plate adjustment device is on each side of every tier, making it suitable for birds of different ages. Its patented mechanism ensures front and rear movement with minimal error.
