

30000 Layer Cage System with Suitable Temperature in Saudi Arabia

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Feature: Anti-corrosion
- Cage Size: 1260*650*450; 1800*650*450

Product Description

30000 Layer Cage System with Suitable Temperature in Saudi Arabia

The ventilation and cooling system plays an indispensable role in ensuring a consistently comfortable environment by providing fresh air and maintaining proper humidity levels for bird health and productivity. Our ventilation and cooling system is comprised of high-quality components, working in concert to ensure a safe living environment within the poultry house.

Components of Ventilation and Cooling System

- 1.The air deflector is constructed with a 50mm insulated foam board and an aluminum alloy frame. It is controlled by Munters AC2000. The matching side curtains is to effectively direct airflow and safeguard poultry health.
- 2.Farmrob adopts butterfly cone fan and direct drive fans, available in both direct-drive and belt-drive configurations. Blade is made of galvanized sheet. The plastic parts utilize POM and nylon, both of which are branded raw materials. The fan delivers high airflow with low failure rates and offers excellent corrosion resistance.
- 3.The cooling pad operates on an evaporation principle to provide cooling and humidification. This process absorbs heat, thereby lowering the air temperature as the cooled air enters the space, while warm air is expelled by fans. Farmrob supplies both aluminum alloy frame flush-mounted cooling pad and deep water trough cooling pad to support this system.

Support and Services:

The cage rearing system is a high-quality, durable, which designed to meet the needs of poultry farmers.

The technical support and services we offer include:

- 1.Installation Guidance: Ensuring smooth installation and proper functionality of the system.
- 2.Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
- 3.Technical Troubleshooting: Quickly resolving any issues encountered during use.
- 4.Training and Instruction: Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
