## Product Description

### 60000 Safe Layer Cage System Suitable for Russian Farms

Designed by Farmrob's professional technical team, this high-end housing system combines scientific design with optimal performance. The durable structure delivers exceptional stability and long-lasting functionality for demanding poultry farming applications.

Each cell accommodates nine birds, providing optimal conditions for health and productivity. The eco-friendly design creates a safe habitat while reducing environmental impact and bird stress, aligning with modern agricultural standards for animal welfare.

Available in flexible configurations with 3 to 12 tiers to suit different farm sizes and production needs. This system represents a strategic investment in farm profitability and sustainability.

#### Key Benefits

- Improves environmental hygiene and farm sanitation
- Maintains optimal chicken health conditions
- Enhances overall farm management efficiency
- Promotes environmental protection and resource utilization
- Increases egg production rates

#### Why Choose Farmrob?

With over 20 years of poultry farming experience, we offer:

- Customized construction and engineering solutions
- Cost-effective pricing and value engineering
- Animal-friendly equipment designed for chicken welfare
- Advanced technical equipment with 15-year lifespan
- Professional installation and technical guidance
- Comprehensive farmer training programs
- Reliable after-sales service and support

**Farmrob's Layer Chicken Cage System** delivers proven performance to optimize your production while maintaining the highest standards of animal welfare and environmental responsibility.
