Product Description

40000 chicks Poultry Battery Cage System with Integrated Ventilation System

Designed with animal welfare in mind, our Pullet Rearing Cage provides ample space for natural movement and healthy development. Its integrated cage and ventilation system ensures optimal air circulation, which is crucial for maintaining good flock health. Available in 3 to 8 tiers, the system offers flexibility to suit different farm sizes and production needs.

Farmrob's filling and feeding system solves uneven feeding problems and improves feed conversion rate, making it ideally suited for all cage systems.

Main advantages of feeding system

- Adjustable feed height plate
- Easy operation
- Low malfunction rate
- Patented feed distributor ensures accurate and even feed dispensing
- Filling probe for correct amount of feed
- Patented residue collector and anti-spill device to avoid waste
- Fast installation
- Galvanized silo with weighing device
- Automatic control
- Real-time data recording

Main advantages of drinking system

- Double line design
- Patented leak-proof nipples
- Pressure regulator and terminator for adequate water flow
- Height-adjustable water pipe
- DOSATRON dosing pump
- Low failure rate and leakage
