

Standardized Rearing Layer Chicken Cage System for Optimal Middle East Farm

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer system
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Feature: Anti-corrosion
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System, Automatic Egg Collection System
- Highlight: **standardized layer chicken cage, middle east farm chicken cage, rearing layer cage system**

Product Description

Standardized Rearing Layer Chicken Cage System for Optimal Middle East Farm

Farmrob offers customized layer-rearing solutions for 3-12 tiers, engineered for efficient and streamlined management of poultry farms. This system provides a spacious and comfortable environment that promotes optimal growth and productivity.

Key Features

Optimal Design: 700mm story height and 450mm cage height ensure sufficient ventilation and effective heat dissipation for chicken comfort. The 13-15 cm separation between manure belt and top net minimizes disease risk.

Safety & Durability: For 6-8 tier systems, includes walkway platform (3mm, $\phi 6$ twisted steel wire) and stairs made of hot-dip galvanized plate for personnel safety and long-term durability.

Water & Lighting: Double water lines with double nipples provide continuous water supply. Flicker-free bulbs ensure even lighting for optimal chicken development.

Climate Control: Advanced ventilation and cooling system maintains temperature uniformity with maximum 2°C differential in large poultry houses.

System Benefits

Our fully automated control system significantly reduces manual intervention and labor intensity while helping you raise healthier chickens, lower operational costs, and maximize profits.

Support & Services

- Installation Guidance for proper system setup
- Regular Maintenance and Repair Services
- Technical Troubleshooting assistance
- Training on system operation and poultry management best practices
