

Stress-Free Egg Production with Layer Chicken Cage System in the Middle East

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer system
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Feature: Anti-corrosion
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System, Automatic Egg Collection System
- Highlight: **layer chicken cage system Middle East, stress-free egg production cage, poultry farming cage system**

Product Description

Stress-Free Egg Production with Layer Chicken Cage System in the Middle East

Farmrob's Layer Cage system is designed for large-scale commercial poultry operations, housing 20,000 birds or more within a single house. Ideal for intensive egg production, these cages are engineered to minimize stress and provide a comfortable environment for hens to lay eggs efficiently.

We provide customized solutions for 3-12 tiers, engineered for efficient and streamlined management of poultry farms. Our ongoing dedication to innovation ensures reliable performance and enhanced returns for your operation.

Key Features:

- Durable Bottom Mesh:** Made of high-strength, elastic Q235 Al-Zn alloy wire with a 7.5-degree gentle slope (1800*650*600 mm) that effectively guides eggs gently to the egg bracket to prevent breakage.
- Efficient Water System:** Double water lines and double nipples ensure sufficient drinking water. Layers can drink water at any time using Farmrob's patented nipple drinkers, which reduce water waste and avoid clogging.
- Advanced Feeding System:** Farmrob's filling and feeding system provides a complete solution to uneven feed distribution, employing a feed cart or chain alongside anti-corrosion troughs and patented components for high cost-efficiency and low feed waste.
- Effective Manure Management:** Driven plastic nylon spiral roller prevents manure accumulation, ensuring smooth rotation of the manure belt. Burr-free Al-Zn-Mg alloy brackets and manure belt withstand heavy loads without deformation. The curved bracket design ensures stable belt tracking and prevents manure falling onto the cage net.

About Farmrob

Farmrob is a leading poultry manufacturer with the No.1 layer equipment market share and ranks among the top three poultry industry companies in China. We are committed to providing reliable and durable equipment for clients. With technological innovation as our core, Farmrob prioritizes animal welfare and production efficiency, helping the global farming industry move towards a better future.

Support and Services

Our high-quality, durable cage rearing system is designed to meet the needs of poultry farmers. We offer comprehensive technical support and services:

- Installation Guidance:** Ensuring smooth installation and proper functionality of the system.
- Regular Maintenance and Repair Services:** Keeping the system in optimal working condition.
- Technical Troubleshooting:** Quickly resolving any issues encountered during use.
- Training and Instruction:** Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
