

## 8-tier Long-Lasting Performance Layer Chicken Cage System for Modern Farms in Vietnam

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System, Automatic Egg Collection System
- Feature: Anti-corrosion
- Highlight: **8-tier layer chicken cage system, long-lasting layer chicken cage, modern farm chicken cage Vietnam**

## Product Description

### 8-tier Long-Lasting Performance Layer Chicken Cage System for Modern Farms in Vietnam

Farmrob is committed to a "chicken-first" philosophy, designing poultry systems that place animal welfare at the core. Our equipment combines smooth surfaces with mature designs, and includes intelligent manure removal, advanced ventilation and cooling, as well as efficient feeding and drinking systems.

With a production capacity of 50,000 sets per month, we ensure timely and reliable supply for our customers. This system is ideal for poultry farmers looking to enhance their operations and increase productivity.

#### Durable Performance

Our equipment is constructed from high-strength, corrosion-resistant Zn-Mg-Al and Zn-Al alloys. These premium materials offer exceptional anti-ageing properties. Combined with our continuously updated designs, these features work together to significantly reduce equipment failure rates.

#### Intelligent Accessories

A comprehensive suite of monitoring devices, including water level detectors and feeding probes, ensures consistent care for your chickens. Our intelligent dimming system simulates natural light cycles to prevent stress, while precise environmental controls maintain optimal conditions within the poultry house.

#### Main Advantages of Feeding System

- Easy operation with low malfunction rate
- Patented feed distributor ensures accurate and even feed dispensing
- Filling probe for correct feed amount measurement
- Patented residue collector and anti-spill device minimize waste
- Fast installation process
- Galvanized silo with integrated weighing device
- Fully automatic control system
- Real-time data recording capabilities

#### Support and Services

Our high-quality, durable cage rearing system is designed to meet all poultry farming needs. We provide comprehensive support including:

- Professional installation guidance for proper system setup
- Regular maintenance and repair services to maintain optimal performance
- Technical troubleshooting for rapid issue resolution
- Training programs on system operation and poultry management best practices

We are committed to delivering exceptional customer service to help your poultry farming business thrive.
