

CE Sustainable Layer Chicken Cage System for Algerian Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer system
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Service Life: Over 15 Years
- Story Height: 700mm
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Trading Method: EXW, FOB, CFR, CIF
- Highlight: **CE certified layer chicken cage, sustainable chicken cage system, Algerian farm chicken cages**

Product Description

CE Sustainable Layer Chicken Cage System for Algerian Farms

Farmrob's poultry farming solutions are designed for modern chicken farms worldwide. With extensive experience completing projects across diverse climates in China, we've developed specialized expertise in ventilation systems and poultry house design that promotes optimal bird health and growth.

Animal Welfare-Driven Design

Our cages provide ample space per bird to reduce stress behaviors like feather pecking. The secure mesh design prevents escape and injury, while the burr-free bottom net protects foot health. The integrated manure belt system keeps eggs and chickens separate from waste, significantly reducing pathogen risks like salmonella. Easy-access sliding doors allow for routine checks with minimal disturbance.

Optimal Ventilation System

The 700mm cage height combined with modern environmental controls (fans and cooling pads) ensures consistent fresh air supply at controlled temperature and humidity levels across all tiers. This advanced airflow management supports respiratory health by minimizing negative pressure.

Farmrob's systems enhance layer hen physical condition and extend peak laying periods for improved productivity.

Full Automatic Chicken Cage System Includes:

- Automatic feeding system
- Automatic drinking system
- Automatic egg collection system
- Automatic manure removal system
- Automatic cooling and ventilation system
- Electric control cabinet

Why Choose Farmrob?

With over 20 years of poultry farming experience, we offer:

- Customized construction and engineering solutions
- Specialized poultry rearing equipment
- Cost-effective pricing
- Animal-friendly designs
- Advanced equipment with 15-year lifespan
- Installation and technical guidance
- Farmer training programs
- Comprehensive after-sales service
