Product Description

Secluded Laying Nest Cage Free System for the USA Farms

Driven by a "chicken-first" philosophy, Farmrob's fully automated systems are engineered to optimize animal welfare and egg productivity. We deliver safe, hygienic, and highly efficient environments that meet the demands of modern poultry farming: exceptional bird health and operational excellence.

Cage-Free System Features

- **Advanced Manure Removal:** Our belt system effectively reduces ammonia emissions, contributing to healthier indoor climate and improved bird welfare while ensuring reliable, low-maintenance operation with extended component lifespan.
- **Comfort-Focused Nesting:** Features soft plastic cushions to protect layers' skin and ensure smooth egg roll onto collection belts with minimal cracks. Secluded curtains provide comfortable laying environment, while automatic closure prevents overnight roosting.
- **Natural Behavior Support:** Design includes ample space with smooth, burr-free Al-Zn alloy platforms and perches to encourage vertical movement and comfortable resting while protecting birds' skin and feathers.
