

## 70000 Layer Chicken Cage System with Sturdy Middle Supports for Pakistan Farms

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer system
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Story Height: 700mm
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Trading Method: EXW, FOB, CFR, CIF
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Highlight: **70000 layer chicken cage system, sturdy layer chicken cage, chicken cage system for Pakistan farms**

## Product Description

### 70000 Layer Chicken Cage System with Sturdy Middle Supports for Pakistan Farms

Efficient environmental control is crucial for poultry farm operations. Farmrob's mature environmental control design simplifies chicken farming while ensuring optimal conditions. The 700mm story height and 450mm cage height provide adequate ventilation and effective heat dissipation, keeping chickens comfortable and reducing stress.

#### Key System Features:

**Ventilation System:** Integrated components including fans, side windows, cooling pads, and air deflectors work together to maintain optimal air circulation.

**Hygienic Design:** Manure belt and top net are spaced 13-15 cm apart, effectively isolating birds from droppings to minimize disease spread.

**Sliding Cage Door:** Wide aperture design allows easy feed access with smooth operation to prevent overcrowding during feeding.

**Middle Supports:** Precision-fabricated from durable 440 Mg-Al-Zn alloy (40mm × 30mm × 40mm) for exceptional load-bearing capacity and deformation resistance.

**Partition Net Buckle:** Metal buckle attachment to trough ensures even force distribution with high strength and minimal deformation.

**Galvanized Silo:** Holds three-day feed supply with excellent sealing to prevent contamination, using auger or chain-disk filling pipes for reliable transfer.

**Trolley Track:** Hot-dip galvanized rectangular pipe (30mm × 60mm, 2.5mm wall thickness) provides high tensile strength and rigidity to withstand heavy loads.

#### Support and Services:

Our durable cage rearing system is designed to meet poultry farmers' needs, backed by comprehensive support:

Installation Guidance for proper system setup

Regular Maintenance and Repair Services

Technical Troubleshooting for operational issues

Training and Instruction on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
