## Product Description

### Open Structure Cage-Free System for USA Farms

Farmrob's Single-tier Aviary System is an ideal solution for poultry farmers seeking increased productivity and fine management. This system provides a safe, simulated natural environment that promotes healthier chickens and improved egg production.

#### System Features

- **Optimized open structure:** Ensures precise ventilation control and ideal environmental conditions with minimal temperature differentials
- **Advanced egg collection:** High-friction belt design provides secure, gentle handling with low failure rates
- **Activity platforms:** Top tier includes perches and platforms to encourage natural behaviors and vertical space utilization
- **Automated nesting:** Closure settings prevent broodiness while curtains create comfortable laying environments
- **Equitable feeding:** Defined feeding spaces ensure uniform access for all birds regardless of rank

#### Design Benefits

The system's open design allows for easy observation and efficient management while supporting vital natural behaviors that are key to animal welfare. Soft nesting pads ensure gentle egg rolling and protect hens' abdominal skin.

### About Farmrob

As China's top three poultry industry manufacturer and #1 layer equipment provider, Farmrob is committed to delivering reliable, durable equipment. We drive technological innovation focused on animal welfare and production efficiency to support the global farming industry.

### Support & Services

Our high-quality cage-free system comes with comprehensive support:

- Professional installation guidance
- Regular maintenance and repair services
- Technical troubleshooting assistance
- Training on system operation and poultry management best practices

We're committed to exceptional customer service to help your poultry farming business thrive.
