

50000 Pullets Poultry Battery Cage System for Healthy Flock Development

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Story Height: 700 Mm
- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Feature: Anti-corrosion
- Cage Size: 1800*600*450mm/3 Rooms-11 Birds/room (0-105 Days)
- Highlight: **50000 pullets poultry battery cage, poultry battery cage system for healthy flock, large capacity poultry battery cage**

Product Description

50000 Pullets Poultry Battery Cage System for Healthy Flock Development

Farmrob's Pullet Rearing Cages provide a secure and low-stress environment with a scientifically engineered design and durable, anti-aging materials. This combination ensures exceptional structural integrity and corrosion resistance, which minimizes equipment failure and maximizes your long-term profitability. The cages are available from 3 to 8 tiers, making them suitable for any operation, regardless of size.

To support consistent flock development, our integrated feeding system promotes uniform nutrition. This effectively addresses uneven feeding issues and enhances the feed conversion rate, making it the ideal choice for any cage system.

Advanced Feeding System Components

Trough: Made of corrosion-resistant Al-Zn-Mg alloy, optimally sized for easy chick access to meet their daily nutritional needs.

Feeding plate adjusting device: Each layer can be automatically adjusted on each side. Suitable for different ages. Patent structure ensures consistent front and rear adjustment with minimal error.

Feeder-cart: Engineered for reliability with a simple structure, delivering uniform feeding and easy operation. Incorporates key patents including a Bird-Dispersing Rod and Residue Collector to enhance efficiency and minimize waste.

Filling Probe: Controls the amount of feed with precision during trolley loading, avoiding overfilling and reducing material waste.

Main Advantages

- Adjustable feed height plate
- Easy operation
- Low malfunction rate
- Patented devices like feed distributor ensure accurate and even feed dispensing
- Patented residue collector and anti-spill device avoid waste
- Automatic control

Manure Removal System

Roller Assembly: Front section utilizes nylon spiral rollers to keep the belt on track and clean off accumulated waste. Rear rollers are high-friction, injection-molded tire rubber driving wheels designed to eliminate stress on and protect the manure cleaning belt.

Bracket & Side Plates: Constructed from anti-corrosion Al-Zn-Mg alloy with smooth surface to prevent belt scratching. Curved design prevents manure spillage and mitigates belt misalignment.

Scraper Mechanism: Multi-tier integrated control system ensures highly effective and automated cleaning operation.

Conveyor Belt: Durable 7mm thick manure belt supported by rust-proof and deformation-resistant alloy frame for effective transport of manure to collection trucks or processing facilities.

Support and Services

The cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. Our technical support and services include:

- Installation Guidance: Ensuring smooth installation and proper functionality of the system.
- Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
- Technical Troubleshooting: Quickly resolving any issues encountered during use.
- Training and Instruction: Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
