

## Thorough Manure Removal Layer Chicken Cage System for the Middle East Farms

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **manure removal layer chicken cage , Middle East farms chicken cage system, layer cage system with manure removal**

## Product Description

### Thoroughly Manure Removal Layer Chicken Cage System for Middle East Farms

#### Trusted Poultry Equipment Manufacturer

Farmrob delivers mature and reliable solutions designed for modern poultry farming demands. As a top-three poultry equipment manufacturer in China, we have established global trust through dependable products and proven farming systems. With over 5,000 clients served worldwide, our fully automated layer rearing equipment is widely acclaimed for advancing intelligent agriculture. Our monthly production capacity of 50,000 sets ensures timely and stable supply, making our products ideal for enhancing poultry operations and boosting productivity.

#### Advanced Manure Removal System

Our patented manure removal system directly addresses major industry challenges by effectively preventing belt misalignment and significantly reducing maintenance requirements.

#### Key System Features

- Each level features manure protectors to prevent droppings or feathers from falling into the trough
- Nylon spiral rollers correct belt deviation and clear accumulated manure
- PP manure belt provides excellent resistance to deformation and aging
- Burr-free Al-Mg-Zn brackets offer enhanced corrosion resistance with curved edges to stabilize the belt and prevent spillage
- Injection-molded rollers deliver high-friction force transmission without damaging the belt
- Centralized control of injection-molded double scrapers across multiple tiers minimizes belt wear and improves cleaning thoroughness
- Manure removal conveyor utilizes a 7mm rubber belt with rustproof, deformation-resistant alloy frame

#### Operational Benefits

The system efficiently removes waste, lowering ammonia levels at the source, suppressing harmful bacteria, and improving overall house hygiene. This creates a healthier and more hygienic growing environment for optimal poultry production.

#### Technical Support & Services

Our high-quality, durable cage rearing system is designed to meet the specific needs of poultry farmers. We provide comprehensive support including:

- Installation Guidance:** Ensuring smooth installation and proper system functionality
- Regular Maintenance & Repair Services:** Keeping the system in optimal working condition
- Technical Troubleshooting:** Quickly resolving any operational issues
- Training & Instruction:** Providing comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive and succeed.
