

## Stable Operation and Environment Layer Chicken Cage System for Vietnam Farms

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Trainings: Installation, Maintenance, Debugging
- Cage Size: 1260\*650\*450mm-2 Doors/cage;  
1800\*650\*450mm-3 Doors/cage
- Story Height: 700 Mm
- Highlight: **layer chicken cage system for Vietnam,  
stable operation chicken cage system,  
environment layer chicken cage farm**

## Product Description

### Stable Operation and Environment Layer Chicken Cage System for Vietnam Farms

Our Layer Chicken Cage System is specifically engineered for modern, enclosed poultry farms in Vietnam. It creates a clean, stable environment essential for bird health and optimal growth, while maximizing space utilization and reducing labor costs.

#### Manufacturing Excellence

Our comprehensive production process spans six specialized workshops: metal fabrication, mesh production, machining, welding, assembly, and electrical controls. We maintain full control over the entire manufacturing process, ensuring all materials and dimensions strictly comply with international standards. Every product undergoes rigorous final inspection, and we provide technical training to guarantee standardized installation and ongoing maintenance.

#### System Advantages

- Burr-free Q235 Al-Zn alloy mesh provides exceptional corrosion resistance and resilience
- 7.5° sloped bottom net with three shock-absorbing wires cushions impact and guides eggs into soft rolling collection
- Sliding door design facilitates easy chick handling and convenient growth observation
- Extended egg pocket and protective board prevent egg pecking
- 700 mm tier height optimizes air circulation and light distribution for bird comfort
- Manure belt positioned 150 mm above top tier isolates waste to minimize disease transmission
- Precision feeding system ensures uniform feed distribution throughout the poultry house
- Dual water line system with double nipples provides ample drinking opportunities
- Spiral roller-driven manure belt reduces waste accumulation and lowers infection risk
- Patented egg lift with high-strength chain drive ensures smooth, reliable operation
- Fully automatic systems enable precise farm management
- Mature environmental control systems support safe, simplified chick rearing

#### Technical Support & Services

Our high-quality, durable cage rearing system is designed to meet the specific needs of Vietnamese poultry farmers. We provide comprehensive support including:

- Professional installation guidance for smooth system setup
- Regular maintenance and repair services to maintain optimal performance
- Technical troubleshooting for quick issue resolution
- Training and instruction on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
