

Easy Management Poultry Battery Cage System for Algeria Farms

Basic Information

Product Specification

- Highlight: poultry battery cage system for farms, easy management poultry cage system, Algeria poultry battery cage system

Product Description

Easy Management Poultry Battery Cage System for Algeria Farms

Through sustained R&D and strategic partnerships with leading universities, Farmrob has developed innovative solutions tailored to modern poultry farming needs. As a top-three enterprise in China, we've earned client trust through reliable products and proven solutions, serving over 5,000 customers to date. Our fully automated layer rearing systems are widely recognized for driving the future of intelligent agriculture.

We operate six specialized workshops across 120,000 square meters for metal fabrication, mesh production, machining, welding, assembly, and electrical controls. With a monthly production capacity of 50,000 sets, we ensure timely and reliable supply for our customers.

System Features

Chicken-Oriented Design: Tiered structure provides comfortable environment, enhancing flock management efficiency and laying rates. Burr-free Q235 Al-Zn alloy mesh prevents bird injury and escape. Plastic mesh prevents foot injuries and promotes healthy growth.

Spring Door: Convenient for vaccinations and transferring chickens in and out.

Easy Feeding: Mg-Al-Zn alloy trough with 45mm interior height and base width provides easy chick access. Step-able troughs with 0.98mm thickness ensure structural integrity and operator safety.

Optimal Ventilation: 700mm tier height and 450mm cage height enhance air circulation and ensure even light distribution for healthy chick growth.

Advanced Manure Removal: Patented components prevent belt misalignment and reduce maintenance. White PP manure belt offers excellent resistance to deformation and aging.

Temperature Control: Air deflector with 5cm foam-filled fireproof color steel plates and Al alloy frames prevents uneven ventilation and dead air zones. Guarantees temperature differential under 2°C from front to back in well-sealed houses.

Technical Specifications

Parameter	Value
Length	1800mm
Depth	600mm
Height	450mm
Story Height	700mm
Birds/Cell	11 birds (0-105 days), 12 birds (0-80/90 days), 13 birds (0-60/70 days)
Cells/Cage	3

Support and Services

Our high-quality, durable cage rearing system is designed to meet poultry farmers' needs. We provide comprehensive technical support including:

Installation Guidance: Ensuring smooth installation and proper system functionality

Regular Maintenance and Repair Services: Keeping systems in optimal working condition

Technical Troubleshooting: Quickly resolving operational issues

Training and Instruction: Providing system usage training and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
