

## Enhanced Health and Welfare Cage Free System for the North American Farms

### Our Product Introduction

#### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: Single-tier Aviary System
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

#### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System
- Trading Method: FOB, CFR, CIF, EXW
- Highlight: **cage free system for farms,  
health and welfare cage free system,  
North American cage free poultry system**

## Product Description

### Enhanced Health and Welfare Cage Free System for North American Farms

Farmrob's poultry equipment provides an ideal solution for both new and established poultry operations, enabling efficient chicken rearing through comprehensive automation. The integrated systems for feeding, drinking, manure removal, egg collection, and environmental regulation significantly enhance operational efficiency while promoting animal welfare.

#### Single-tier Aviary System Advantages

Our carefully engineered ecosystem ensures healthy poultry growth and efficient production. The open structure design facilitates optimal ventilation control and environmental conditions. Manure segregation from birds combined with precise environmental management creates an odor-free housing environment.

The equipment provides sufficient feed access through pans and ample water line availability to meet daily nutritional requirements, supporting optimal growth and development.

#### Advanced Nesting System Features

**Individual Privacy:** Each nest includes curtains, providing hens with secure and private laying spaces that reduce stress and encourage consistent use.

**Broodiness Prevention:** Nest positions can be raised at night using nesting closure settings, effectively preventing hens from entering and settling for incubation to discourage broody behavior.

**Gentle Egg Handling & Hen Protection:** Soft, smooth nesting pads ensure eggs roll away gently after laying, protecting both egg quality and the hen's delicate abdominal skin from friction and injury.

#### Multi-tiered Perches and Activity Platforms

Multi-level perches and activity platforms allow birds to move freely and utilize the full vertical space. These structures satisfy chickens' natural perching instincts, reduce ground activity time, lower flock stress, improve rest quality, and promote more stable egg production.

#### Technical Support and Services

Our cage rearing system is high-quality and durable, designed specifically to meet poultry farmers' operational needs. We provide comprehensive support services including:

Installation Guidance: Ensuring smooth installation and proper system functionality

Regular Maintenance and Repair Services: Keeping systems in optimal working condition

Technical Troubleshooting: Rapid resolution of operational issues

Training and Instruction: Comprehensive education on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
