

Well-Designed Layer Chicken Cage System for Vietnam Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **layer chicken cage system for Vietnam farms, well-designed poultry farming equipment, durable layer chicken cage**

Product Description

Well-Designed Layer Chicken Cage System for Vietnam Farms

Designed specifically for the housing and management of laying hens, our Layer Chicken Cage System provides a controlled, comfortable, and hygienic environment that directly promotes higher egg production rates and improves the overall health and welfare of the flock.

A key feature of our system is its ability to ensure flock uniformity. By minimizing variations in weight, body size, and developmental stages among the birds, it creates an optimized group for consistent production. This uniformity is crucial for enhancing overall operational efficiency, as it simplifies management practices, improves feed conversion ratios, and reduces stress-related health issues.

The cage layout is engineered for operational ease and efficiency. Its ergonomic design allows for easy access to eggs, significantly simplifying and accelerating the collection process while minimizing labor costs and potential egg damage.

Furthermore, the system is integrated with an advanced ventilation and cooling system. This built-in mechanism ensures optimal air quality, regulates temperature, and effectively reduces excess moisture and ammonia levels. By maintaining a consistently comfortable environment, it mitigates heat stress and supports the respiratory health of the poultry, which is fundamental to sustaining peak productivity.

In summary, our Layer Chicken Cage System is a comprehensive solution that combines animal welfare-focused design with practical engineering to deliver superior results in modern egg production.

H Type Battery Chicken Cage Features

- Automatic control systems
- Chicken-oriented design
- Simplified management and low labor requirements
- Ample activity space
- Double water line and sufficient feeding positions
- High feed conversion ratio
- Easy to operate and maintain
- Comfortable environment with fresh air and gentle ventilation
- Temperature difference within two degrees
- Full utilization of space and reduced investment
- Low morbidity and mortality rates
- Large-scale breeding with good economic benefits
- Optimal illumination and ventilation
- Anti-aging materials

H Type Battery Chicken Cage Advantages

- Centralized management allows for more efficient use of energy and labor resources
- Even feed distribution maintains chicken uniformity and healthy body condition
- Cage and manure removal system design ensures friendly and hygienic environment
- Optimized energy efficiency and enhanced egg production rates with advanced technology
- Control system automates feeding, egg collection, manure removal, ventilation, and lighting

Support and Services

Our cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. The technical support and services we offer include:

- Installation Guidance: Ensuring smooth installation and proper functionality of the system
- Regular Maintenance and Repair Services: Keeping the system in optimal working condition
- Technical Troubleshooting: Quickly resolving any issues encountered during use
- Training and Instruction: Providing training on system usage and best practices in poultry management

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
