

Automation Meets Layer Health Layer Chicken Cage System for Russia Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **automated layer chicken cage system, layer chicken cage for Russia farms, poultry farming cage system with automation**

Product Description

Automation Meets Layer Health Layer Chicken Cage System for Russia Farms

Farmrob's H-Type Layer Cages are engineered to maximize modern poultry farming efficiency through three integrated design pillars: superior stocking density, intelligent automation, and bird health assurance.

System Design Advantages

Optimized Spatial Efficiency

- High-density layout dramatically increases bird capacity per square meter
- Maintains comfortable living environment despite increased density
- Vertical space optimization delivers higher return on facility investment

Advanced Automation & Labor Savings

- Integrated automation for feeding, drinking, egg collection, and manure removal
- Minimizes manual intervention and reduces long-term operational costs
- Reduces human-related stressors for improved flock welfare

Engineered for Health & Performance

- Enhanced ventilation systems and precise climate management
- Durable materials and robust structural design
- Promotes consistent health and reduces disease risk
- Supports sustained productivity through controlled environment

Automated Manure Management

Our automated manure removal system operates on a precise, timed schedule for regular waste evacuation. This critical hygiene feature significantly reduces harmful ammonia and gas concentrations, improving air quality while lowering disease risks and parasitic infestations.

Precision Feeding & Hydration

Integrated automatic feeding and drinking systems deliver consistent nutrition and hydration directly to birds. This ensures uniform feed distribution and constant fresh water supply to every tier, enhancing feed conversion ratios while minimizing waste and promoting uniform growth.

Technical Support & Services

Our high-quality, durable cage rearing system is designed to meet the needs of modern poultry farmers, backed by comprehensive support services:

Installation Guidance: Ensuring smooth installation and proper system functionality

Regular Maintenance & Repair: Keeping systems in optimal working condition

Technical Troubleshooting: Quick resolution of operational issues

Training & Instruction: Comprehensive education on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
