

## Standardized Enclosed Layer Chicken Cage System Enhanced Biosecurity and Operational Efficiency

### Our Product Introduction

#### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H-type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

#### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Cage Size: 1.8\*0.65\*0.45m-3 Rooms; 1.26\*0.65\*0.45m-2 Rooms
- Highlight: **enclosed layer chicken cage system, biosecurity layer chicken cages, efficient layer chicken cage system**

## Product Description

### Standardized Enclosed Layer Chicken Cage System

Farmrob's H-type layer cage system features an enclosed housing design that creates a physical barrier between farm personnel and poultry. This separation enhances biosecurity while significantly improving the birds' living environment. By minimizing contact with external contaminants, the system effectively reduces disease transmission risks, resulting in lower mortality rates and healthier flocks.

#### Enhanced Operational Efficiency

Our equipment is engineered for user convenience and reliability, featuring intuitive operation that requires minimal training. With robust construction and low failure rates, we provide comprehensive troubleshooting support and maintenance guidance to maximize long-term operational efficiency and sustainable performance.

#### Customized Farming Solutions

We specialize in developing tailored solutions for your farm's specific scale, layout, and management goals. Our approach creates a balanced, productive, and health-oriented environment that benefits both animals and farm profitability.

#### Comprehensive Support & Training

We provide complete installation guidance and operational training to empower your team. This knowledge transfer equips you with the confidence and skills to manage poultry rearing operations smoothly and successfully.

### Key System Features

**Fully Automated Operation:** Integrated systems for feeding, drinking, manure removal, egg collection, and environmental control significantly reduce labor costs and manual intervention.

**High Density Rearing:** H-frame layer cages offer high rearing density and intensification while saving land at the same farming scale.

**Enhanced Biosecurity:** Fully enclosed breeding mode separates humans and chickens, improving poultry house environment and reducing foreign disease invasion and mortality.

**Premium Construction:** Cages are constructed with Q235 Al-Zn alloy wire for superior corrosion resistance and extended service life, ideal for industrial and intensive farming operations.

**Quality Control:** Wire processing and welding in our own workshop ensures strict control over dimensions, surface smoothness, and structural rigidity.

### Why Choose Farmrob?

With over 20 years of poultry farming experience and mature systems, Farmrob delivers exceptional value:

- Customized construction and project design engineering solutions
- Reasonable and cost-effective quotations
- Chicken-oriented and animal-friendly equipment design
- Advanced technical equipment with 15-year lifespan
- Professional installation and technical guidance
- Comprehensive farmer training on bird care and equipment maintenance
- Thoughtful service and complete after-sales support system
