

Efficient Waste Transport Layer Chicken Cage System for Indonesia Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm
- Highlight: **efficient layer chicken cage system, waste transport chicken cage, Indonesia farm chicken cage system**

Product Description

Efficient Waste Transport Layer Chicken Cage System for Indonesia Farms

Advanced Poultry Farming Solutions

Through sustained R&D and partnerships with leading universities, Farmrob has developed innovative solutions designed specifically for modern poultry farming. As a top-three enterprise in China, Farmrob has earned client trust through reliable products and proven solutions, serving over 5,000 customers to date. Our fully automated layer rearing systems are widely recognized and are helping to drive the future of intelligent agriculture.

Engineered for Performance and Reliability

Developed by Farmrob's specialized technical team, this product combines innovative engineering with advanced technology. Its streamlined design process focuses on achieving peak performance and exceptional reliability. Built with a long-lasting structure, it delivers superior stability and continuous operation—ideally engineered for demanding applications.

Integrated Automation System

Combined with automated control of feeding, drinking, manure removal, climate control, and lighting systems, our equipment significantly reduces labor demands. This integrated automation enhances productivity, improves working conditions, keeps chickens healthy, and boosts feed conversion efficiency.

Efficient Waste Management

Farmrob's manure removal system ensures efficient and thorough waste transport. Engineered to prevent belt misalignment and effectively clear buildup, it significantly reduces ammonia emissions at the source while inhibiting harmful bacteria growth. The result is a comprehensively improved barn environment that promotes flock health and enhances productivity.

Technical Specifications

Specification	Details
Tiers	3-12
Quantity of Cells per Cage	2; 3
Each Cell Size (mm)	630*650*450; 600*650*450
Cage Size	1260*650*450; 1800*650*450
Quantity of Birds per Cell	9
Quantity of Birds per Cage	18; 27
Story Height	700mm

Support and Services

The cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. Our comprehensive technical support and services include:

Installation Guidance: Ensuring smooth installation and proper functionality of the system

Regular Maintenance and Repair Services: Keeping the system in optimal working condition

Technical Troubleshooting: Quickly resolving any issues encountered during use

Training and Instruction: Providing training on system usage and best practices in poultry management

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
