

Healthy Productive Birds Poultry Battery Cage System for Global Pullet Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic pullet equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm
- Highlight: **poultry battery cage system for pullet farms, healthy productive birds battery cage, global poultry farming cage system**

Product Description

Healthy Productive Birds Poultry Battery Cage System for Global Pullet Farms

Our poultry battery cage system is engineered with a primary structure constructed from high-strength alloy, ensuring exceptional sturdiness and long-term durability. This robust design enables the cages to withstand extreme weather conditions while offering superior resistance to corrosion and rust.

For decades, we have supplied modern poultry farming equipment to producers worldwide. Our products are specifically engineered to meet diverse regional challenges including climate variations, socio-economic factors, and local infrastructure requirements.

Designed specifically for pullet development, our cage system provides a spacious, comfortable, and hygienic environment that promotes healthier and more productive birds. Our ongoing commitment to design optimization guarantees minimal failure rates and reliable long-term performance.

Advanced Feeding System Advantages

- Adjustable feeding plate for precise control
- Easy operation and maintenance
- Low malfunction rate for reliable performance
- Patented feed distributor ensures accurate and even feed dispensing
- Filling probe for correct amount of feed measurement
- Patented residue collector and anti-spill device minimize waste
- Fast installation process
- Galvanized silo with integrated weighing device
- Automatic control system
- Real-time data recording capabilities

Superior Drinking System Advantages

- Double-line water distribution system
- Patented leak-proof nipples
- Pressure regulator and terminator for adequate water flow
- Height-adjustable water pipe
- DOSATRON dosing pump integration
- Low failure rate and zero leakage design

Farmrob operates six specialized workshops: metal fabrication, mesh production, machining, welding, assembly, and electrical controls. We maintain complete control over the entire manufacturing process, ensuring all materials and dimensions strictly comply with industry standards. Every product undergoes rigorous final inspection, and we provide comprehensive technical training to guarantee standardized installation and ongoing maintenance.

Technical Support and Services

Our high-quality, durable cage rearing system is designed to meet the specific needs of poultry farmers worldwide. We provide comprehensive support including:

- Installation Guidance:** Ensuring smooth installation and proper system functionality
- Regular Maintenance and Repair Services:** Keeping your system in optimal working condition
- Technical Troubleshooting:** Quick resolution of operational issues
- Training and Instruction:** Comprehensive education on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
