

Durable Construction Layer Chicken Cage System for Russia Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Service Life: Over 15 Years
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **durable layer chicken cage system, construction chicken cage for farms, Russia farm layer cage system**

Product Description

Durable Construction Layer Chicken Cage System for Russia Farms

The Layer Battery Cage System represents the pinnacle of efficiency and reliability in modern commercial poultry farming. Engineered with a robust alloy frame and precision-welded mesh, its advanced design prioritizes animal density, hygiene control, and operational workflow.

Key System Features

- Integrated manure belts for superior hygiene management
- Automated feeding and water lines for operational efficiency
- Graded egg collection systems to reduce labor costs
- Durable construction with robust alloy frame and precision welding
- Optimized for large-scale commercial poultry operations

This synergy of durable construction and smart engineering translates into consistently high return on investment, making it a universally adaptable and cost-effective solution for farms with large scale.

Automated Feeding System

Farmrob's **automated filling and feeding system** provides the ultimate solution to inconsistent feed distribution. By ensuring every bird receives a precise and uniform ration, the system directly enhances the flock's feed conversion rate, leading to significant cost savings.

Advanced Drinking System

The **drinking system** features a rigid, non-deforming main pipe that ensures consistent water flow. It utilizes a dual-line design to provide ample drinking water for all birds, equipped with patented double needle nipples that effectively prevent debris clogs.

All components are constructed from durable, non-aging materials including stainless steel and high-grade plastics for sustained performance. Each tier includes pressure regulators and filters to ensure clean, healthy water supply.

Technical Specifications

Parameter	Specifications
Tiers	3-12
Quantity of Cells per Cage	2; 3
Each Cell Size (mm)	630*650*450; 600*650*450
Cage Size (mm)	1260*650*450; 1800*650*450
Quantity of Birds per Cell	9
Unit Area/Bird	455cm ² , 434cm ²
Story Height	700mm

Technical Support & Services

Our comprehensive support package ensures optimal system performance and longevity:

- Installation Guidance:** Ensuring smooth installation and proper functionality
- Regular Maintenance & Repair:** Keeping the system in optimal working condition
- Technical Troubleshooting:** Quickly resolving operational issues
- Training & Instruction:** Providing comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
