

Optimal Environment Control Layer Chicken Cage System for Enhancing Poultry Growth

Our Product Introduction

for more products please visit us on farmrob.com

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Service Life: Over 15 Years
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **layer chicken cage system for poultry growth, environment control layer chicken cage, poultry growth chicken cage system**

Product Description

Optimal Environment Control Layer Chicken Cage System for Enhancing Poultry Growth

Modern poultry housing systems effectively reduce land resource requirements and construction costs while significantly increasing stocking density. These systems optimize available space utilization while maintaining healthy animal growth. The design emphasizes ease of cleaning and disinfection, enhancing biosecurity and reducing disease outbreak risks. Compared to traditional floor systems, modern farms achieve higher annual turnover rates.

Centralized management and automation are key features, with integrated systems for feeding, drinking, manure removal, ventilation, cooling, and lighting that ensure optimal environmental conditions. This reduces manual labor dependency, minimizes human error, and improves operational efficiency. The result includes increased labor productivity, safer working environments, enhanced feed conversion rates, improved growth performance, and reduced feed costs per output unit, contributing to more sustainable, cost-effective poultry farming operations.

H Type Layer Chicken Cage Features

- Automatic control systems
- Chicken-oriented design
- Simplified management and low labor requirements
- Ample activity space
- Double water line and sufficient feeding positions
- High feed conversion ratio
- Easy operation and maintenance
- Comfortable environment with fresh air and gentle airflow
- Full space utilization and investment savings
- Low morbidity and mortality rates
- Large-scale breeding with excellent economic benefits
- Even, soft illumination and ventilation
- Anti-aging materials

Technical Specifications

Parameter	Specifications
Tiers	3-12
Quantity of Cells per Cage	2; 3
Each Cell Size (mm)	630*650*450; 600*650*450
Cage Size (mm)	1260*650*450; 1800*650*450
Quantity of Birds per Cell	9
Unit Area/Bird	455cm ² , 434cm ²
Story Height	700mm

Support and Services

Our cage rearing system is a high-quality, durable solution designed to meet modern poultry farming needs. We provide comprehensive technical support and services including:

1. Installation Guidance: Ensuring smooth installation and proper system functionality
2. Regular Maintenance and Repair Services: Maintaining optimal system performance
3. Technical Troubleshooting: Rapid resolution of operational issues
4. Training and Instruction: Comprehensive education on system operation and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
