

Non-Deformable Components Pullet Poultry Battery Cage System for Russian Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic pullet equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Feature: Anti-corrosion
- Trainings: Installation, Maintenance, Debugging
- Highlight: **non-deformable poultry battery cage, Russian farm poultry cage system, pullet battery cage with warranty**

Product Description

Non-Deformable Components Pullet Poultry Battery Cage System for Russian Farms

Farmrob specializes in designing and delivering high-performance poultry farming solutions. Our pullet rearing systems provide secure, low-stress environments using anti-aging materials and science-driven engineering. This ensures outstanding structural strength and corrosion resistance, reducing failure rates and increasing operational profitability.

Our poultry cages are constructed from premium alloy with carefully selected anti-aging, non-deformable components for enhanced robustness and longevity. We tailor our products to meet specific regional conditions including climate, socio-economic factors, and infrastructure requirements.

Automatic Pullet Battery Cage Advantages

Durable Construction: Superior resistance to corrosion and physical stress enables the structure to withstand extreme environmental conditions with a service life of up to 25 years. The innovative spring-loaded door offers exceptional convenience during bird transfer and vaccination operations.

Optimized Feeding System: Feed troughs fabricated from durable 0.95/0.98 mm Mg-Al-Zn alloy are integrated with patented devices. This design ensures consistent, even feed distribution across the entire line, preventing spillage and segregation while reducing feed wastage.

Advanced Water System: Dual water lines equipped with patented nipples and matching cups guarantee a reliable supply of clean, fresh water to all birds while preventing leakage. The precision design encourages natural drinking behavior and dramatically reduces water waste.

Efficient Manure Management: Continuous belt-type manure removal structure with durable double scrapers ensures thorough daily clearance of manure, maintaining excellent coop hygiene. This controls ammonia levels and moisture, reducing pathogen load and disease risk.

Technical Specifications

Parameter	Value
Length	1800mm
Depth	600mm
Height	450mm
Story Height	700mm
Birds/Cell	11 birds (0-105 days), 12 birds (0-80/90 days), 13 birds (0-60/70 days)
Cells/Cage	3

Support and Services

Our high-quality, durable cage rearing system is designed to meet the needs of poultry farmers. We provide comprehensive technical support and services including:

- Installation Guidance for smooth setup and proper functionality
- Regular Maintenance and Repair Services to keep systems in optimal condition
- Technical Troubleshooting for quick resolution of operational issues
- Training and Instruction on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
