

## Our Product Introduction

for more products please visit us on [farmrob.com](http://farmrob.com)

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type pullet equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **poultry battery cage for baby chicks , minimized mortality chicken cage system, baby chicks poultry cage with warranty**

## Product Description

### Minimized Mortality Poultry Battery Cage System for Baby Chicks

#### Advanced Poultry Rearing System

The H-type pullet cage system features a fully enclosed housing design that ensures complete segregation between human activity and poultry flocks. This approach dramatically enhances biosecurity by minimizing external pathogen exposure, thereby reducing mortality rates.

Guided by a "bird-first" philosophy, our poultry equipment prioritizes animal welfare. Our systems integrate streamlined structures with proven engineering, incorporating intelligent manure removal, advanced ventilation and cooling control, and efficient feeding and drinking systems. By promoting bird health and improving operational productivity, we provide a safe, hygienic, and highly efficient environment suited to modern poultry farming demands.

#### Key Features and Advantages

##### Durable Construction

Constructed from premium corrosion-resistant materials including Al-Zn-Mg and Al-Zn alloys, our cages withstand harsh environmental conditions. The robust frame supports substantial loads and endures frequent cleaning procedures, ensuring extended service life with minimal maintenance.

##### Ease of Management

Our poultry battery equipment simplifies daily farm operations with automated feeding, drinking, manure removal, and egg collection systems. Easy access to each tier saves significant time and reduces labor costs for poultry farmers.

##### Medicine Cost Reduction

The H-type layer chicken cage's fully enclosed rearing mode creates separation between humans and chickens, significantly improving poultry house environment and reducing foreign disease invasion and mortality rates.

##### Controllable Environment

In well-sealed, insulated poultry houses, we guarantee temperature variation of less than 2°C from front to rear. Our selected fans provide high airflow capacity, low failure rates, minimal performance degradation, and robust resistance to negative pressure.

#### Technical Support and Services

Our cage rearing system is a high-quality, durable solution designed to meet the specific needs of poultry farmers. We provide comprehensive support including:

**Installation Guidance:** Ensuring smooth installation and proper system functionality

**Regular Maintenance and Repair Services:** Keeping the system in optimal working condition

**Technical Troubleshooting:** Quickly resolving any operational issues

**Training and Instruction:** Providing comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
