

60000-Bird Layer Chicken Cage System for Commercial Poultry Farms in Russia

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **60000-bird layer chicken cage, commercial poultry farm cage system, Russia poultry layer cage system**

Product Description

60000-Bird Layer Chicken Cage System for Commercial Poultry Farms in Russia

Modern poultry housing systems provide an effective solution for conserving land resources and reducing construction costs. These systems significantly increase stocking density while optimizing limited space usage and supporting healthy bird development. Farmrob's design emphasizes convenient cleaning and disinfection, strengthening biosecurity and minimizing disease outbreak risks. Compared to conventional floor rearing, modern poultry farms enable precise management and higher year-round production turnover.

Our equipment utilizes premium high-strength alloy engineered for superior corrosion resistance. The materials' excellent anti-aging characteristics ensure long-term structural integrity. Through continuous design enhancements combined with durable materials, we achieve significantly reduced failure rates while maximizing durability and reliability under demanding conditions.

Designed with a 700 mm story height, our cage system addresses environmental and behavioral requirements effectively. This optimal height prevents chickens from reaching the manure belt, minimizing pecking risks while ensuring better light uniformity across all tiers. The expanded vertical space creates a larger air column that enhances natural ventilation, reduces static pressure, and promotes fresher air circulation, resulting in a breathable environment that supports bird welfare and reduces stress.

Layer Cage System Features

- Comfortable and safe feeding and ventilation environment
- Reasonable area per bird
- Egg damage rate as low as 0.2%
- Maintains chicken health with low mortality
- Enhanced farm management efficiency
- Higher egg production rate
- Centralized and precise management

Technical Specifications

Specification	Details
Tiers	3-12
Quantity of Rooms per Cage	3
Each Room Size (mm)	600×650×450
Cage Size (mm)	1800×650×450
Quantity of Birds per Cell	9
Unit Area/Bird	434cm ²
Story Height	700mm

Support and Services

Our cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. We provide comprehensive technical support and services including:

- Installation Guidance: Ensuring smooth installation and proper system functionality
- Regular Maintenance and Repair Services: Keeping the system in optimal working condition
- Technical Troubleshooting: Quickly resolving any operational issues
- Training and Instruction: Providing comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
