

## H Type Frame Baby Chicks Cage Design Poultry Battery Cage System in Thailand Farms

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm
- Highlight: **H type poultry battery cage, baby chicks cage design, poultry cage system Thailand**

## Product Description

### H Type Frame Baby Chicks Cage Design Poultry Battery Cage System

The H-type frame cage system serves as the core structure of complete poultry farming equipment. Its innovative design maximizes farming density within limited spaces, significantly improving land and feed resource utilization efficiency. With mature integrated engineering, it seamlessly combines feeding, drinking, and manure removal systems into a highly efficient and coordinated farming unit that meets modern poultry farming automation standards while enhancing baby chicks' development.

#### Key Features & Benefits

- Engineered for stability and reliability with scientific design, capable of reaching 8 tiers in height with superior load-bearing capacity for efficient intensive production
- Exceptional corrosion resistance, perfectly suited for harsh environments with high salt spray and humidity
- Burr-free Q235 Al-Zn alloy mesh with superior corrosion protection
- Prevents bird injury and escape, ensuring flock safety and security
- Specialized plastic mesh pads for chicks provide stable, secure footing and enhanced comfort during early development
- Spring-loaded cage door facilitates easy access for vaccination and safe chick transfer
- 700 mm tier height promotes smooth ventilation and even light distribution for comfortable, low-stress environment
- Manure belt positioned 150 mm above top net effectively separates waste from birds, preventing disease transmission
- For 6 tiers or more, hot-dip galvanized walkway grating and stairways ensure safe operational access

#### Technical Support & Services

Our high-quality, durable cage rearing system is designed to meet the evolving needs of poultry farmers. We provide comprehensive support services including:

1. Professional Installation Guidance for smooth setup and proper system functionality
2. Regular Maintenance and Repair Services to maintain optimal working condition
3. Technical Troubleshooting for quick resolution of operational issues
4. Training and Instruction on system usage and best practices in poultry management

We are committed to delivering exceptional customer service and technical support to help your poultry farming business thrive and achieve maximum productivity.
