

Streamlined Drinking and Manure Removal Automation Poultry Battery Cage System for Baby Chicks Rearing

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm
- Highlight: **automated poultry battery cage system, baby chicks rearing cage system, streamlined manure removal poultry cage**

Product Description

Streamlined Drinking and Manure Removal Automation Poultry Battery Cage System

This advanced poultry battery cage system enables fully centralized and streamlined management by integrating automated control of feeding, drinking, manure removal, climate, and lighting into an intelligent farming system. Comprehensive automation dramatically reduces labor demands while improving productivity and working conditions, ensuring healthier, less-stressed chickens with better feed conversion rates and consistent flock performance.

System Specifications

Cage Dimensions: 600 × 600 × 450 mm

Suitable For: Chicks from 0 to 105 days old

Capacity: Up to 11 birds per cage

Story Height: 700 mm for optimal ventilation

Door Type: Zn-Al alloy spring door for easy vaccination and handling

Automated Drinking System

Features high-quality white square pipes with patent nipples, water cups, pressure regulators, terminals, and dosing pump. The adjustable water line height and integrated water filter ensure clean, contaminant-free water throughout the growth cycle. Premium DOSATRON pumps provide precise water treatment for optimal layer health management, supported by efficient water supply, drainage, and backflush devices.

Manure Removal System

Front-mounted system with patented plastic nylon spiral drive wheel prevents belt misalignment and efficiently removes accumulated manure. Constructed with hot-dip galvanized steel skeleton for durability and Al-Zn-Mg alloy belt bracket for superior anti-corrosion performance. Smooth surface side plates prevent scratching or damaging the manure belt during operation.

System Benefits

- Improve environmental hygiene and farm cleanliness
- Maintain optimal chicken health and welfare
- Enhance farm management efficiency and productivity
- Support environmental protection and resource utilization
- Reduce chick stress levels for better growth
- Improve chick survival rate and flock uniformity
- Optimize feeding and drinking management systems
- Facilitate observation and early disease detection

Technical Support & Services

Our high-quality, durable cage rearing system is designed to meet the evolving needs of modern poultry farmers. We provide comprehensive support including:

Installation Guidance: Ensuring smooth installation and proper system functionality

Regular Maintenance & Repair: Keeping systems in optimal working condition

Technical Troubleshooting: Quick resolution of operational issues

Training & Instruction: Comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive and achieve maximum productivity.
