

6-10 Tiers High Reliability Layer Chicken Cage System with 700mm Story Height for Indonesia Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm
- Highlight: **6-10 tier layer chicken cage system, high reliability layer chicken cages, 700mm story height chicken cage**

Product Description

6-10 Tiers High Reliability Layer Chicken Cage System

Developed by Farmrob's expert engineering team, this layer chicken cage system integrates advanced engineering principles with precision manufacturing techniques. Each component is meticulously crafted to meet the highest standards of quality and reliability, specifically designed for Indonesian farming conditions.

Key System Features

- Durable Construction:** Cage mesh made from Q235 Zn-Al-Mg alloy for superior corrosion resistance and longevity
- Sliding Door Design:** Allows easy bird movement while preventing escapes, with simple worker operation
- Egg Protection System:** 7.5-degree gentle slope bottom mesh (1800×650×600 mm) cushions egg roll to prevent breakage
- Optimal Ventilation:** 700mm story height design ensures steady air circulation and fresh airflow
- Manure Management:** Front nylon spiral rollers prevent belt deviation and clean accumulated manure
- Drive System:** Injection-molded tire rubber driving wheels provide high friction and protect manure cleaning belts
- Egg Quality Protection:** Protective board prevents egg pecking and protects feed trough from contamination

System Benefits

This layer rearing equipment supports optimal hen welfare by providing a comfortable, stress-free environment that contributes to increased egg production and superior egg quality. Integrated automated feeding and drinking systems ensure consistent access to fresh feed and clean water.

Application Scope

Well-suited for various poultry operations including commercial poultry farms, egg production facilities, and large-scale layer rearing operations requiring high reliability and efficiency.

Technical Support & Services

Our comprehensive support package ensures your poultry farming operation runs smoothly and efficiently:

- Installation Guidance:** Professional support for smooth system installation and proper functionality
- Regular Maintenance:** Scheduled maintenance and repair services to keep systems in optimal condition
- Technical Troubleshooting:** Quick resolution of operational issues and technical challenges
- Training Programs:** Comprehensive instruction on system operation and poultry management best practices

We are committed to delivering exceptional customer service and technical support to help your poultry farming business achieve maximum productivity and success.
